COURSE DESCRIPTION: This course is open for unlicensed personnel working in medical environments who wish to become more familiar with medical terms. This course is approved for NIH interpreters to meet the requirement for participation in a Medical Terminology course.

COURSE OBJECTIVES: At the conclusion of this course the participant will be able to:

1. State the meanings of four word roots for each body system.
2. State the meanings of the most used prefixes and suffixes in the medical terminology.
3. List the terms used for all the parts of the body as they are used in medical writing.
