

EMT-B training courses are provided through Cerro Coso Community College.

- **Bishop Campus: 760-872-1565**
- **Mammoth Campus: 760-934-2875**

A healthcare provider CPR card is now a pre-requisite for both the full course and the recertification course.

A full course will be held every Spring term in Bishop, with a recertification course in Mammoth. Classes for the full courses are every Monday and Wednesday at 5:30 p.m.

The recertification courses are held over 2 consecutive weekends, 4 six hour days.

Hour-for-hour CE is available to any currently certified EMT who participates in any EMT class as an assistant to the instructor during skills training. Please contact Martha Reynolds, RN, MICN at 760-873-8695 for further information or to sign up as an assisting instructor.

CE is given at all base station meetings, the second Thursday of every even month (February, April, June, August, October, December).

CE is provided at most NIH course offerings; please check the website for upcoming courses. If the course is approved for ICEMA CE, it will appear at the bottom of the course flyer.

All recertification information is detailed on the ICEMA web page (<http://www.sbcounty.gov/icema/>). Also on the ICEMA website are all protocols, announcements, and other important EMS information.
