# DRAFT AGENDA

# NORTHERN INYO HEALTHCARE DISTRICT BOARD OF DIRECTORS REGULAR MEETING

# September 18, 2019 at 5:30 p.m. 2957 Birch Street, Bishop, CA

- 1. Call to Order (at 5:30 pm).
- 2. At this time persons in the audience may speak on any items not on the agenda on any matter within the jurisdiction of the District Board (Members of the audience will have an opportunity to address the Board on every item on the agenda. Speakers are limited to a maximum of three minutes each).
- 3. New Business:
  - A. Strategic Planning Session, David Sandberg, Cycle of Business (information item).
- 4. Chief of Staff Report, Stacey Brown, MD:
  - A. Policy and Procedure approvals (action items):
    - 1. Medication Security
    - 2. Classifying Adverse Transfusion Reactions
    - 3. Standardized Procedure for Admission of the Well Newborn
    - 4. ED: Initiation of Buprenorphine in the Emergency Department
    - 5. Opioid Administration
    - 6. Controlled Substance
    - 7. Healthcare Worker Health Screening and Maintenance Requirements Policy
    - 8. Placenta Disposal
    - 9. Da Vinci Robot Cleaning and Maintenance
  - B. Medical Staff Appointments (action items):
    - 1. David Amsalem, MD (emergency medicine) Provisional Active Staff
    - 2. Bo Loy, MD (orthopedic surgery) Provisional Active Staff
  - C. Advanced Practice Provider Appointment (action item):
    - 1. Tamara Loy, PNP Pediatric Clinic
  - D. Reappointments to New Staff Category (action items):
    - 1. Tamara McBride, MD (family medicine/hospitalist) change from Temporary Staff to Provisional Active Staff

- 2. Monika Mehrens, DO (family medicine/hospitalist) change from Temporary Staff to Provisional Active Staff
- E. Temporary Privileges for 60 days (action item):
  - 1. Jennifer Kosek, MD (radiology) for the locum tenens coverage of Dr. Stuart Souders
- F. Extension of Temporary Privileges for an Additional 60 days (action items):
  - 1. Joseph BenPerlas, MD (internal medicine) locums hospitalist
  - 2. Michael Rhodes, MD (internal medicine) locums hospitalist
- G. Resignations (action items):
  - 1. N. Michelle Inforzato, MD (*internal medicine*)
  - 2. Leo Pisculli, MD (psychiatry)
- H. Advancement (action item):
  - 1. Anne Wakamiya, MD (*internal medicine*) recommended for advancement from Provisional Active Staff to Active Staff
- I. Physician recruitment update (information item).

\_\_\_\_\_\_

## Consent Agenda (action items)

- 5. Approval of minutes of the August 21 2019 regular meeting
- 6. Approval of minutes of the September 9 2019 special meeting
- 7. Financial and statistical reports as of June 30, 2019
- 8. Compliance Board Report September 2019, quarterly
- 9. Policy and Procedure Annual Approvals

\_\_\_\_\_\_

- 10. Reports from Board members (*information items*).
- 11. Adjournment to closed session to/for:
  - A. Conference with Labor Negotiators; Agency Designated Representative: Irma Moisa; Employee Organization: AFSCME Council 57 (*pursuant to Government Code Section* 54957.6).
- 12. Return to open session and report of any action taken in closed session.
- 13. Adjournment.

In compliance with the Americans with Disabilities Act, if you require special accommodations to participate in a District Board meeting, please contact administration at (760) 873-2838 at least 48 hours prior to the meeting.

### NORTHERN INYO HOSPITAL

Northern Inyo Healthcare District 150 Pioneer Lane, Bishop, California 93514 Medical Staff Office (760) 873-2136 voice (760) 873-2130 fax

TO: NIHD Board of Directors

FROM: William Timbers, MD, Chief of Medical Staff

DATE: September 3, 2019

RE: Medical Executive Committee Report

The Medical Executive Committee met on this date. Following careful review and consideration, the Committee agreed to recommend the following to the NIHD Board of Directors:

- A. Policies and Procedures (action item)
  - 1. Medication Security
  - 2. Classifying Adverse Transfusion Reactions
  - 3. Standardized Procedure for Admission of the Well Newborn
  - 4. ED: Initiation of Buprenorphine in the Emergency Department
  - 5. Opioid Administration
  - 6. Controlled Substance
  - 7. Healthcare Worker Health Screening and Maintenance Requirements Policy
  - 8. Placenta Disposal
  - 9. da Vinci Robot Cleaning and Maintenance
- B. Medical Staff Appointment (action items)
  - 1. David Amsalem, MD (emergency medicine) Provisional Active Staff
  - 2. Bo Loy, MD (orthopedic surgery) Provisional Active Staff
- C. Advanced Practice Provider Appointment (action item)
  - 1. Tamara Loy, PNP Pediatric Clinic
- D. Reappointment to New Staff Category (action items)
  - 1. Tamara McBride, MD (family medicine/hospitalist) change from Temporary Staff to Provisional Active Staff
  - 2. Monika Mehrens, DO (family medicine/hospitalist) change from Temporary Staff to Provisional Active Staff
- E. Temporary Privileges for 60 days (action item)
  - 1. Jennifer Kosek, MD (radiology) for the locum tenens coverage of Dr. Stuart Souders.
- F. Extension of Temporary Privileges for an Additional 60 days (action items)
  - 1. Joseph BenPerlas, MD (internal medicine) locums hospitalist
  - 2. Michael Rhodes, MD (internal medicine) locums hospitalist
- G. Resignations (action items)
  - 1. N. Michelle Inforzato, MD (internal medicine)
  - 2. Leo Pisculli, MD (*psychiatry*)
- H. Advancements (action item)

- 1. Anne Wakamiya, MD (*internal medicine*) recommended for advancement from Provisional Active Staff to Active Staff.
- I. Physician recruitment update (information item)

Title: Medication Security	
Scope: Hospital-Wide	Department: <b>Pharmacy</b>
Source: Pharmacy Director	Effective Date: 6/16/2004

### **PURPOSE:**

To ensure compliance with State and Federal law regarding the security of dangerous drugs and controlled substances

### **POLICY:**

- 1. The Pharmacy shall be locked and the alarm activated at all times that the pharmacy is closed.
- 2. The supportive Pharmacy personnel have access from 0630-1700.
- 3. Keys and locks to any area, cabinet or drawer storing medications shall be under the supervision of the Director of Pharmacy or pharmacist designee.
- 4. Locks and/or keys to any of these areas may only be installed or replaced by contacting the Director of Pharmacy or pharmacist designee. The Maintenance Department will not install or replace locks to medication areas, cabinets or drawers, except at the request of the Director of Pharmacy or pharmacist designee.
- 5. If the keys to a locked medication area, cabinet or drawer are taken from the hospital a UOR Form should be completed and the Director of Pharmacy or pharmacist designee should be notified.
- 6. Locks will be replaced at the discretion of the Director of Pharmacy or pharmacist designee.
- 7. Drugs shall be accessible only to responsible personnel designated by the director of pharmacy or to patients in accordance with existing policy regarding bedside medications and patient self-medication. The following are designated personnel for purposes of this section:
  - a. Licensed independent practitioners
  - b. Licensed nurses
  - c. Pharmacists and supportive personnel under the direct supervision of a pharmacist
  - d. Respiratory Therapists
  - e. Licensed Radiological Technologists
- 8. All spaces and areas used for the storage of drugs shall be locked and accessible to authorized personnel only.
- 9. The Omnicels will only be allowed access pursuant to Director of Pharmacy approval.
- 10. In the event of a declared or undeclared disaster where power interruption prevents the use of the key card for entry into the pharmacy an emergency key to access the department is held permanently by the Pharmacy Director and a second key is securely stored in the Diagnostic Imaging Omnicell accessible only to a pharmacist. It is noteworthy that if the disaster is significant enough to disable the back up generation of power supply of the District and the Pharmacy Director cannot immediately be reached there is only a 20 minute window to access the Omnicell in Diagnostic Imaging as the battery back up supply will only provide power to the Omnicell for 20 minutes.

Title: Classifying Adverse Transfusion Reactions	
Scope: Hospital-wide	Department: Laboratory
Author: Immunology Coordinator	Effective Date: July 2016
Copy Location:	Revised Date:

## Purpose:

To define how adverse reactions are classified, evaluated and reported at Northern Inyo Hospital as required by AABB Standard 7.3

# Policy:

Acute and delayed adverse transfusion reactions are identified, evaluated, classified and reported by clinical staff caring for the transfusion recipient.

Symptoms of adverse transfusion reactions as well as immediate steps to take if such symptoms appear and documentation of these actions are described in the nursing "Blood and Blood Component Transfusion" policy and procedure.

## Classifying Adverse Reactions:

The pathologist will review and determine the classification based on tThe following are the CDC's standardized definitions of adverse transfusion events:

## Transfusion-associated Circulatory Overload (TACO)

New onset or exacerbation of 3 or more of the following within 6 hours of cessation of transfusion:

- a. Acute respiratory distress (dypsnea, orthopnea, cough)
- b. Elevated BNP
- c. Elevated central venous pressure (CVP)
- d. Evidence of left heart failure
- e. Evidence of positive fluid balance
- f. Radiographic evidence of pulmonary edema

### 2. Transfusion-related acute lung injury (TRALI)

All five of the following are present:

- a. NO evidence of acute lung injury (ALI) prior to transfusion
- b. ALI onset during or within 6 hours of cessation of transfusion
- c. Hypoxemia defined by any of these methods:
  - i. PaO2/FiO2 less than or equal to 300 mm Hq
  - ii. Oxygen saturation less than 90% on room air
  - iii. Other clinical evidence
- d. Radiographic evidence of bilateral infiltrates
- e. No evidence of left atrial hypertension (i.e. circulatory overload)

# 3. Transfusion-associated dypsnea (TAD)

Both of the following are true:

- a. Acute respiratory distress occurring within 24 of cessation of transfusion
- b. Allergic reaction, TACO, and TRALI definitions are not applicable
- 4. Allergic reaction (minor allergic reactions (non-severe) do not need to be reported)

Title: Classifying Adverse Transfusion Reactions	
Scope: Hospital-wide	Department: Laboratory
Author: Immunology Coordinator	Effective Date: July 2016
Copy Location:	Revised Date:

Two or more of the following occurring during or within 4 hours of cessation of transfusion:

- a. Conjunctival edema
- b. Edema of lips, tongue and uvula
- c. Erythema and edema of the periorbital area
- d. Generalized flushing
- e. Hypotension
- f. Localized angioedema
- g. Maculopapular rash
- h. Pruritus (itching)
- i. Respiratory distress; bronchospasm
- j. Urticaria (hives)

# 5. Hypotensive transfusion reaction

All other adverse reactions presenting with hypotension are excluded and hypotension occurs during or within 1 hour after cessation of transfusion:

- a. Adults (18 years and older):
  - Drop in systolic BP of greater than or equal to 30 mmHg and systolic BP less than or equal to 80 mmHG
- b. Infants, children and adolescents (1 year to less than 18 years):
  - Greater than 25% drop in systolic BP from baseline (e.g., drop in systolic BP of 120mmHg to below 90mmHg).
- c. Neonates and small infants less than 1 year or less than 12 kg body weight:
  - Greater than 25% drop in baseline value using whichever measurement is being recorded

## 6. Febrile non-hemolytic transfusion reaction (FNHTR)

Occurs during or within 4 hours of cessation of transfusion and either of the following occur:

- a. Fever (greater than or equal to 38C oral and a change of at least 1C from pretransfusion value)
- b. Chills/rigors

# 7. Acute hemolytic transfusion reaction (AHTR)

Occurs during, or within 24 hours of cessation of transfusion with new onset of any of the following:

- a. Back/flank pain
- b. Chills/rigors
- c. DIC
- d. Epistaxis
- e. Fever
- f. Hematuria (gross visual hemolysis)
- g. Hypotenson
- h. Oliguria;anuria

Title: Classifying Adverse Transfusion Reactions	
Scope: Hospital-wide	Department: Laboratory
Author: Immunology Coordinator	Effective Date: July 2016
Copy Location:	Revised Date:

- i. Pain and/or oozing at IV site
- j. Renal failure

AND 2 or more of the following:

- a. Decreased fibrinogen
- b. Decreased haptoglobin
- c. Elevated bilirubin
- d. Elevated LDH
- e. Hemoglobinemia
- f. Hemoglobinuria
- g. Plasma discoloration c/w hemolysis
- h. Spherocytes on blood film

AND EITHER (IMMUNE-MEDIATED): Positive DAT for anti-IgG or anti-C3 and positive elution test OR (NON-IMMUNE MEDIATED): Serologic testing is negative and physical cause (thermal, osmotic, mechanical, chemical) is confirmed

# 8. Delayed hemolytic transfusion reaction (DHTR)

- a. Positive DAT for antibodies developed between 24 hours and 28 days after cessation of transfusion
- AND EITHER: positive elution test with alloantibody present on the transfused RBCs
   OR newly-identified RBC alloantibody in recipient serum
- c. AND EITHER: inadequate rise of post-transfusion hemoglobin level or rapid fall in hemoglobin back to pre-transfusion levels

OR: Otherwise unexplained appearance of spherocytes

## 9. Delayed serologic transfusion reaction (DSTR)

Absence of clinical signs of hemolysis and demonstration of new clinically-significant antibodies against RBCs by either a positive DAT or a positive antibody screen with newly identified RBC alloantibody.

# 10. Transfusion-associated graft vs. host disease (TAGVHD)

A clinical syndrome occurring from 2 days to 6 weeks after cessation of transfusion characterized by:

- a. Characteristic rash: erythematosus, maculopapular eruption centrally that spreads to extremities and may, in severe cases, progress to generalized erthroderma and hemorrhagic bullous formation
- b. Diarrhea
- c. Fever
- d. Hepatomegaly
- e. Liver dysfunction
- f. Marrow aplasia
- g. Pancytopenia

Title: Classifying Adverse Transfusion Reactions	
Scope: Hospital-wide	Department: Laboratory
Author: Immunology Coordinator	Effective Date: July 2016
Copy Location:	Revised Date:

## h. Characteristic histological appearance of skin or liver biopsy

## 11. Post transfusion purpura (PTP)

Alloantibodies in the patient directed against HPA or other platelet specific antigen detected at or after development of thrombocytopenia AND thrombocytopenia to less than 20% of pre-transfusion count.

# 12. Transfusion-transmitted infection (TTI)

Laboratory evidence of a pathogen is demonstrated in the transfusion recipient with no other explanation. Pathogen can be bacterial, viral (HIV, hepatitis, West Nile Virus, HTLV-1), parasitic (Babesia, Trypanosoma cruzi, Malaria), or other (Creutzfeldt-Jakob disease)

## **Evaluating the Severity of Adverse Reactions:**

The following are degrees of severity as defined by the CDC:

### 1. Non-severe:

Medical intervention (e.g. symptomatic treatment) is required but lack of such would not result in permanent damage or impairment of a bodily function.

### 2. Severe:

Inpatient hospitalization or prolongation of hospitalization is directly attributable to the adverse reaction, persistent or significant disability or incapacity of the patient occurs as a result of the reaction, or a medical or surgical intervention is necessary to preclude permanent damage or impairment of a body function.

### 3. Life-threatening:

Major intervention required following the transfusion (e.g. vasopressors, intubation, transfer to intensive care) to prevent death.

### 4. Death:

The recipient died as a result of the adverse transfusion reaction. Death should be used if death is possibly, probably or definitely related to transfusion. If the patient died of a cause other than the transfusion, the severity of the reaction should be graded as appropriate given the clinical circumstances related to the reaction

### 5. Not Determined:

The severity of the adverse reaction is unknown or not stated.

### Determining the Degree that Transfusion Contributed to Adverse Reactions:

The following are levels of imputability as defined by the CDC:

### 1. Definite:

No other explanations for the reaction are possible

#### 2. Probable:

Title: Classifying Adverse Transfusion Reactions	
Scope: Hospital-wide	Department: Laboratory
Author: Immunology Coordinator	Effective Date: July 2016
Copy Location:	Revised Date:

Transfusion is a likely contributor to the reaction but there are other potential causes that could explain the symptoms

### 3. Possible:

Other present causes are most likely, but transfusion cannot be ruled out

### 4. Doubtful:

Evidence is clearly in favor of a cause other than the transfusion, but transfusion cannot be excluded

### 5. Ruled Out:

There is conclusive evidence beyond reasonable doubt of a cause other than the transfusion

### 6. Not Determined:

The relationship between the adverse reaction and the transfusion is unknown or not stated.

# Reporting:

- 1. Adverse transfusion reactions are fully reported in the patient's chart and include a copy of the "Transfusion Investigation" document
- 2. Adverse reactions can be reported to the National Healthcare Safety network (NHSN) biovigilance component, part of the CDC. (http://www.cdc.gov/nhsn/PDFs/Biovigilance/BV-HV-protocol-current.pdf.)
- 3. Transfusion reactions, whether fatal or not, due to errors such as patient misidentification, unit misidentification, or errors in ABO testing are reported to the State Health Department.
  - a. State of Calif Dept Health Services Epidemiology Branch: 916-324-2833
- 4. Fatal transfusion reactions are reported to the FDA. Notification of the Director of the Office of Compliance and Biologics Quality for the Center for Biologics Evaluation and Research must take place as soon as possible by telephone, followed by a written report within seven days.
  - a. The telephone number for this office is 301-827-6220
  - b. The address for this office is:
    - i. Office of Compliance and Biologics Quality/CBER
    - ii. Attn: Fatality Program Manager (HFM-650)
    - iii. 1401 Rockville Pike, Suite 200N
    - iv. Rockville, MD 20852-1448

### POLICY AND PROCEDURE

Title: Standardized Procedure for Admission of the Well Newborn	
Scope: Perinatal	Manual: Perinatal
Source: Manager of Perinatal Department	Effective Date:

# **PURPOSE**

To ensure well newborns receive immediate and short-term ongoing assessment, care, and timely administration of prophylactic ophthalmic erythromycin to prevent opthalmia neonatorum, intramuscular Hepatitis B vaccine for perinatal Hepatitis B prevention, and intramuscular Vitamin K to prevent Vitamin K deficient bleeding (VKDB) pending notification of the pediatrician and receipt of physician orders for continuing care.

### **POLICY**

It is the policy of Northern Inyo Healthcare District (NIHD) that all well newborns will be assessed and provided care upon admission under the direction of a Registered Nurse (RN) with annual documented competencies following this Standardized Procedure. All well newborns will receive prophylactic administration of erythromycin ophthalmic ointment, Hepatitis B vaccine, and Vitamin K by an RN, unless there is a documented refusal by the parent, under this Standardized Procedure.

### **PROCEDURE**

- 1. Experience, Training, and/or Education Requirements of the RN
  - a. Current California RN licensure
  - b. Current Neonatal Resuscitation Program (NRP) card
  - c. Successful completion of orientation to newborn care at NIHD
- 2. Method of Initial and Continued Evaluation of Competence
  - a. Initial evaluation: successful completion and demonstration of competency and clinical decision making in assessment of the newborn, as documented in the unit-specific clinical competency orientation checklist.
  - b. Ongoing evaluation: annual completion of education activity on newborn assessment and administrations of prophylactic medications to a neonate.
- 3. Maintenance of Records of those authorized in Standardized Procedure
  - a. A list of RNs competent to perform this standardized procedure is maintained with the Chief Nursing Officer and is updated annually.
- 4. Settings where Standardized Procedure may be preformed
  - a. Admission of a well newborn and administration of prophylactic medications may take place in the Perinatal unit at the mother's bedside, newborn nursery, or in the Post Anesthesia Care Unit.
- 5. Standardized Procedure
  - a. Circumstance under which Standardized Procedure may be performed:
    - i. Well newborn delivered at NIHD

### POLICY AND PROCEDURE

Title: Standardized Procedure for Admission of the Well Newborn	
Scope: Perinatal	Manual: Perinatal
Source: Manager of Perinatal Department	Effective Date:

### b. Procedure

- i. The RN will perform an admission assessment according to policy
- ii. The RN will initiate the Newborn Admission Orders:
  - Code Status:
    - o Full Code
  - When to call Pediatrician:
    - Call Peds at 7:30am to inform them of any delivery after 5pm the previous day
    - o If born before 5pm, call Peds ASAP
  - Please call Pediatrician immediately, at any hour, in the event of:
    - o Maternal Chorioamnionitis
    - o Maternal GBS positive without adequate maternal antibiotic coverage if infant is <37 weeks or ROM ≥18 hours even if otherwise well
    - o Immediately for infant fever ≥100.4°F
    - o Immediately for other concerns that cannot wait until normal rounding time
    - o If indicated per Pulse Ox Screening, Hyperbilirubinemia, or Hypoglycemia policies
  - Vital signs every hour times 2
  - Vital signs every 8 hours and PRN
  - Infant diet: Breastfeed only unless maternal refusal or medical need per policy
    - o Breastfeed on demand.
  - Oximetry per protocol
  - Drugs of abuse screen
    - o Urine collection for drug screen if mother's drug screen is positive
  - Newborn hearing screening before discharge
  - Newborn Screening Test before discharge
  - Bili scan at 24 hours or earlier, then daily until discharge
  - Bili Scan PRN for worsening jaundice or any jaundice prior to 24 hours of age
  - Congenital heart defect screen at 24 hours
  - Sweet Ease for pain control only

### POLICY AND PROCEDURE

Title: Standardized Procedure for Admission of the Well Newborn	
Scope: Perinatal	Manual: Perinatal
Source: Manager of Perinatal Department	Effective Date:

- Pacifier use for pain control only unless requested by parent and pacifier use education provided
- Collect cord blood workup specimen
- Erythromycin Ophthalmic Ointment 0.5 % 1 application within 2 hours of delivery
- Phytonadione IM (Vitamin K1) Give 1 mg. Give within 2 hours of delivery
- Heel Stick Blood Sugar per policy
- Hepatitis B Virus Vaccine (PF) IM (Engerix-B) 0.5 mL within 24 hours if mother is Hepatitis B negative. Give as soon as possible within 12 hours of age if mother is Hep B positive or unknown
- Cholecalciferol Oral Drops 400 unit every day. Start day of discharge o 400 IU = 1 DROP Q day to start on the day of discharge.
- 6. Other specialized circumstances requiring RN to contact physician
  - a. 10 minute APGAR score less than 7
- 7. Review of Standardized Procedure
  - a. Standardized procedures are reviewed and approved annually by the Interdisciplinary Practice Committee.

Title: ED: Initiation of Buprenorphine in the Emergency Department		
Scope: Emergency Department Manual: Emergency Department		
Source: ED Manager	Effective Date:	

### **PURPOSE:**

To begin initiation of Medication Assisted Treatment (MAT) for opioid addiction using Buprenorphine in the Emergency Department (ED).

### **KEY POINTS:**

Opioid addiction is a disease. Medication-assisted treatment improves survival and can be implemented successfully in the ED setting using buprenorphine.

Buprenorphine induces analgesia through partial agonist activity at the mu-opioid receptor. It is a high affinity, slow receptor dissociating opioid that partially activates the receptor causing a "ceiling effect", which reduces the risk of respiratory depression with overdose. Buprenorphine is used in MAT for opioid dependency and has lower abuse potential compared to other medications used for MAT. Patients must be in withdrawal before buprenorphine is administered. Physicians can administer buprenorphine in the ED, for up to 72 hours, but cannot prescribe for outpatient use without a DEA-X license waiver. Patients must meet certain criteria and be screened for opioid withdrawal prior to receiving a dose of buprenorphine. Patients will then be referred to Care Coordination for ongoing MAT.

### **DEFINITIONS:**

### **Buprenorphine Facts**

- A partial agonist at the mu-opioid receptor.
- Compared to full agonists (i.e. morphine, methadone, oxycodone), buprenorphine only partially activates the receptor causing a "ceiling effect", minimizing risk of respiratory depression with overdose.
- Has a very high affinity for the mu-receptor so patients must be in withdrawal before buprenorphine is administered.
- Physicians can administer buprenorphine in the ED, but cannot prescribe without a DEA-X license waiver.

### **POLICY AND PROCEDURE:**

- 1. ED Provider will screen patient for an opioid use disorder and offer treatment
- 2. ED RN will assess patient for opioid withdrawal
- 3. If the patient is interested in initiating MAT, Buprenorphine will be initiated by the ED provider (Reference: Buprenorphine Hospital Quickstart Guidelines)
- 4. The ED Provider will consider adjunctive treatment to ease withdrawal symptoms such as ibuprofen, ondansetron, clonidine, and loperamide

Title: ED: Initiation of Buprenorphine in the Emergency Department		
Scope: Emergency Department Manual: Emergency Department		
Source: ED Manager	Effective Date:	

- 5. At discharge, the ED Provider will refer the patient to care coordination for ongoing MAT
- 6. Upon Discharge ED Provider will offer prescription for Naloxone

Title: Opioid Administration*	
Scope: Nursing Services	Manual: CPM - Medication (MED)
Source: Manager - ICU Acute/Subacute	Effective Date: 11/16/16

### **PURPOSE:**

To provide safe and appropriate opioid pain relief to patients.

### **POLICY:**

- 1. A thorough assessment of a patient is to be completed by a licensed RN prior to opioid administration (see procedure below for more detailed information).
- 2. An opioid can be administered by a Registered Nurse or Physician. A licensed Vocational Nurse (LVN) may administer opioids excluding IV opioid administration.
- 3. A physician's order has to be obtained prior to any opioid administration.

### **DEFINITION:**

Acute pain – is a normal sensation that alerts us to possible injury.

Chronic pain – any pain lasting more than 12 weeks; may arise from an initial injury, or there may be an ongoing cause, such as illness.

Opioid – a medicine possessing some properties characteristic of opiate narcotics but not derived from opium. Some examples include: Hydrocodone (Vicodin), Tramadol (Ultram), Oxycodone (Percocet), Meperidine (Demerol), Morphine, Hydromorphone (Dilaudid), Methadone, Fentanyl, Refer to UpToDate for detailed drug information.

Opioid naïve – implies patients are not chronically receiving opioids on a daily basis. Opioid tolerant – implies patients are chronically receiving opioids on a daily basis.

### **PROCEDURE:**

- 1. <u>Assessment</u>: Upon admission, a thorough assessment should be performed on a patient by a licensed RN prior to any opioid administration. To ensure patient safety, this should be reviewed and updated as needed with each shift as necessary. This assessment includes, but is not limited to:
  - Assessing cognitive abilities to ensure an appropriate pain scale (e.g. 0-10 numeric scale, FACES, or FLACC) and pain goal is applied. This pain goal should be decided upon admission and charted on EHR.
    - a) Is the patient alert and oriented?
    - b) Are they able to appropriately describe their pain?
    - c) What pain scale should be used and what is the patient's desired pain goal if not all pain can be eliminated?
    - d) Are they age appropriate to be receiving the ordered dose and route prescribed?
  - Asking about history and current medication use
    - a) Does the patient have acute or chronic pain?
    - b) Do they take any opioid pain medications and for how long?
    - c) Does the patient have history of Substance Use Disorder (SUD)?
- 2. <u>Education</u>: Prior to opioid administration, education for the medical personnel and for the patient is imperative.
  - Education for the personnel pertains to understanding the potential effects of opioid administration and what to monitor, such as:
    - a) Sedation level see 'Opioid Sedation Scale' policy.
    - b) Drug interactions
    - c) Drug compatibility

Title: Opioid Administration*	
Scope: Nursing Services	Manual: CPM - Medication (MED)
Source: Manager - ICU Acute/Subacute	Effective Date: 11/16/16

- d) Side effects constipation, nausea and vomiting, respiratory depression, risk of falls, CNS depression, impact on psychomotor and cognitive function
- e) Potential for addiction, tolerance, physical dependency, and withdrawal
- Education for the patient should include:
  - a) Understanding the use of the medications, the desired effects, the potential adverse effects, how the medication will be administered
  - b) Pain scale and pain goal and how it relates to what type of pain relief measures can be provided
  - c) Onset of action and duration to expect effect of medication
- 3. Administration: When considering the use of an opioid, a series of checks should be completed:
  - A multimodal approach should be taken when treating pain and trialed prior to ultimately giving an opioid:
    - a) Psychosocial support
    - b) Coordination of care
    - c) Promotion of healthful behaviors
    - d) Non-pharmacological approaches
      - i. Distraction
      - ii. Relaxation techniques
      - iii. Positioning
      - iv. Cool or warm packs
    - e) Non-opioid medications
      - i. Non-steroidal anti-inflammatory agents
      - ii. Muscle relaxants
  - If after doing the above and an opioid is needed, a physician order must be obtained
    - a) If written as a PRN order, there should be parameters according to a pain scale (e.g. Morphine 2 mg IV as needed for severe pain 7-10)
  - Timely assessment and appropriate monitoring is essential when opioids are administered to permit intervention to counteract an adverse reaction should it occur refer to 'Patient Controlled Analgesia (PCA)' and 'Opioid Sedation Scale' policies for monitoring guidelines and interventions.
    - a) Patients are at high risk of respiratory depression and over-sedation, and are more prevalent in patients with/who:
      - i. Sleep apnea or sleep disorders
      - ii. Morbid obesity
      - iii. Snoring
      - iv. Older age (over 61 years old)
      - v. Opiate Naïve (no recent opioid use)
      - vi. Post-surgery (particularly upper abdominal surgery)
      - vii. Increased opioid dose requirement (Above 60mg MS Equivalent greatly increases risk)
      - viii. Receiving other sedating drugs (benzodiazepines, CNS depressants, etc.)
      - ix. Preexisting pulmonary or cardiac disease or other major organ dysfunction
      - x. Smoker
  - Continually assess the need for opioid administration and advocate for its discontinuation as prompt as able to per patient's condition
  - Educate other staff members within the multi-disciplinary team to take extra precautions with the patient

### 4. Wasting of opioids:

Follow the Opioid Waste policy

### **DOCUMENTATION:**

- Documentation for opioid administration should be performed as per 'Barcode Medication Administration' policy on the MAR.
- Documentation for monitoring and assessment of pain and sedation scale should be performed on in the EHR. See 'Patient Controlled Analgesia (PCA)' policy for appropriate monitoring of an administered opioid and the 'Opioid Sedation Scale' policy for sedation scale monitoring.
- Documentation of opioid waste per the Opioid Waste Policy

Title: Controlled Substance	
Scope: Hospital Wide	Department: Pharmacy
Source: Director of Pharmacy	Effective Date: 03/20/03

### **PURPOSE:**

To ensure compliance with Federal (Title 21 U.S.C., Controlled Substances Act and Food, Drug, and Cosmetics Act), State (Health & Safety Code, Uniform Controlled Substances Act) (Chapter 9, Division 2, Business and Professions Code)

### **POLICY:**

- 1. Controlled substances will be procured, stored and distributed by the pharmacy department.
- 2. The pharmacy department will maintain a perpetual inventory of controlled substances in Class II-V.
- 3. Each addition or removal will be recorded as follows:
  - a. Additions will be recorded with the source, the invoice number (if applicable), the C222 number if a C-II addition, the actual count after the addition of the drug to the inventory, the initials of the recording pharmacist or technician, and the initials of the inventorying pharmacist.
  - b. Removals will be recorded with the requisition number, the initials of the pharmacist or technician recording the transaction, the amount removed, and actual remaining inventory and the initials of the inventorying pharmacist.
- 4. The pharmacy department will maintain the controlled substance inventory under separate lock within the pharmacy.
- 5. A physical inventory of controlled substances will be taken each year quarterly at approximately the same time. Such inventory will be taken with two pharmacists and will be recorded in the perpetual inventory sheets for each item.
- 6. Biennially, the physical inventory of all controlled substances in the hospital will be recorded, printed, signed, dated and timed by the Pharmacist-in-charge (PIC). The biennial inventory will be kept for 3 years and will be available for inspection by any government agency.
- 7. Controlled substances will be stored on nursing units in Automated Dispensing Cabinets only utilizing secure locked bins or a secure dispensing unit.
- 8. Controlled substances will be distributed to automated dispensing units in quantities set by the director of pharmacy through the automated dispensing cabinet software.
- 9. Each controlled drug transaction will be recorded by the dispensing cabinet software and will be printed or exported to a retrievable document which will be stored electronically for a minimum of 3 years.
- 10. Returns and wastes will be documented in the automated dispensing system by two licensed persons with access to the automated dispensing cabinet through secure identification and passwords.
- 11. Removals from the dispensing cabinet of controlled substances will be made by a single user only upon sign in to the cabinet using secure identification and password and selection of an individual active patient.
- 12. A pharmacist on duty may dispense a controlled substance directly from the pharmacy only in the case of immediate need for administration and only upon recording the removal of the controlled substance from the pharmacy's controlled substance perpetual inventory. Such record must include the patient to whom the controlled substance was administered with the patient's encounter or account number of the active visit.
- 13. Verification of administration will be done by the pharmacy department by reconciling every removal with documentation of administration. Such verification will be performed daily. Discrepancies will be reconciled by contacting the administering professional in writing of the discrepancy. The Director of Pharmacy will be responsible for obtaining resolution by licensed personnel. Lack of reconciliation by professional personnel could subject the professional to potential loss of controlled substance privileges,

Title: Health Care Worker Health Screening and Maintenance Requirements	
Scope: NIHD	Manual: Employee Health
Source: Employee Health Specialist	Effective Date: 5/1/19

### **PURPOSE:**

Health Screening for Health Care Workers (HCW's) occurs to ensure the worker is able to perform in the position offered and a plan has been developed for necessary documentation of immunity against specific diseases throughout the working relationship. HCW's reduce the personal risk of infection and reduce the spread of vaccine-preventable infections by receiving appropriate vaccines.

### **POLICY:**

- 1. HCW Health Screening is completed by the Employee Health Nurse Specialist in collaboration with Human Resources, Medical Staff Administration, the RHC Rural Health Clinic, and Department Mangers.
- 2. The Health Screening begins after a contract or job offer has been made, and before actual employment/relationship begins.
- 3. The immunization and TB screening is preferred to begin at least 2 weeks prior to start date.
- 4. Immunization monitoring and TB screening is an ongoing process that continues throughout the working relationship.
- 5. The scope of this policy, unless otherwise noted, applies to all HCW's at NIHD. Recommendations within this policy are in accordance with the United States Center for Disease Control and Prevention (CDC) guidelines for Immunization of Health-Care Personnel, Division of Occupational Safety and Health of California (CAL/OSHA), and California Department of Public Health (CDPH). All vaccination and tuberculosis monitoring policies will be consistent with state and federal standards.

### **DEFINITIONS**

- 1. **Employee:** NIHD payroll employee
- 2. **Health Care Worker (HCW):** includes (but are not limited to) physicians, nurses, nursing assistants, therapists, technicians, emergency medical service personnel, dental personnel, pharmacists, laboratory personnel, autopsy personnel, students and trainees, contractual staff not employed by the health-care facility, and persons (e.g., clerical, dietary, housekeeping, laundry, security, maintenance, administrative, billing, and volunteers) not directly involved in patient care but potentially exposed to infectious agents that can be transmitted to and from health care workers and patients.. (*CDC*)
- 3. **Health Care Personnel (HCP):** an interchangeable term with Health Care Worker.
- 4. **Volunteer and Auxiliary:** Active members that are in contact with patients and their families on campus.
- 5. **Shadower:** Observing a health care role, but not physically involved in any care.

### **GUIDELINES**

- 1. Center for Disease Control (CDC) current year Immunization Schedule and recommendations for Health Care Personnel.
- 2. Current edition of CDC Epidemiology and Prevention of Vaccine Preventable Diseases.
- 3. CDPH and Cal/OSHA mandatory vaccinations against aerosol transmissible infections.
- 4. OSHA requirements for Blood Borne Pathogen vaccination.
- 5. Legal declination documentation as described in CDC, CDPH, and Cal OSHA.
- 6. Forms attached are based on State and Federal requirements.

Title: Health Care Worker Health Screening and Maintenance Requirements	
Scope: NIHD	Manual: Employee Health
Source: Employee Health Specialist	Effective Date: 5/1/19

### **PROCEDURE:**

- 1. Human Resources, Medical Staff Administration, Volunteer/Auxiliary Coordinator, Department Managers will provide the Screening Requirements Form to the HCW and support the importance of meeting with Employee Health Nurse Specialist preferably at least 2 weeks prior to the proposed start date.
- 2. Human Resources and Medical Staff Administration will provide the Employee Health Nurse Specialist with names, contact information, and current TB screening, immunizations and titer documentation of all new HCW's who have received and accepted a job offer, or other agreement. Their support is critical to success in requesting the new HCW provide all childhood and career vaccines from prior employers, clinics, and hospitals. It is preferred this process begins 2 weeks prior to start date.
- 3. Any HCW returning to NIHD more than 6 months from termination will be required to start the process over. If the person returns in less than 6 months after termination of employment they will be required to complete a health history form, complete a review of prior immunization records and TB screening, and a focused assessment on the physical demands of the specific position.
- 4. Shadowers are not cleared by Employee Health as they are observing and not in direct contact with patients.
- 5. To clear a new hire through the Employee Health Nurse Specialist, the nurse must be able to do the following:
  - a. Review prior TB screening, immunization records, and titers
  - b. Develop a plan with the new employee to meet onboarding requirements
  - c. The Health History and Physical Exam is completed as defined in this policy.
  - d. Then, Employee Health with send an email to Human Resources or Medical Staff Administration, stating the HCW is cleared by Employee Health.

# 6. NEW HIRE HEALTH HISTORY AND PHYSICAL EXAM

- a. The New Hire Health History and Physical Exam is required of all prospective NIHD payroll employees and Travelers only.
- b. The physical exam is to be scheduled between Human Resources, RHC, and Employee Health and completed prior to the first day of employment by the RHC Provider.
- c. A prior New Hire Health History and Physical Exam with all components is acceptable if the terminated person returns within 6 months.
- d. Documentation of the following must be included:
  - i. Health History
  - ii. Physical Exam
  - iii. Allergies including latex
  - iv. Audiometry
  - v. Vision Test
  - vi. Color vision: Ishihara 14 plates with color failure identification
  - vii. Infectious Disease Exposure Screening

### 7. TUBERCULOSIS SCREENING

- a. TB Screening is required of all HCW's who will be on campus at NIHD.
- b. TB Screening is arranged and completed by the Employee Health Nurse Specialist.
  - i. 2-step TB Skin Test is required, even if the person received a BCG vaccination in the past.

Title: Health Care Worker Health Screening and Maintenance Requirements	
Scope: NIHD	Manual: Employee Health
Source: Employee Health Specialist	Effective Date: 5/1/19

- ii. If there is documentation of a negative Tuberculosis Skin Test (TST) in the last 12 months, then only 1 additional TST is required prior to start date.
- iii. A QFT (QuantiFERON-TB Gold Assay) in the last 12 months is an acceptable alternative to TST.
- iv. If there is a documented positive TST, reference Employee Tuberculosis Surveillance Program for direction.
- v. Intervals for serial TB testing is at least every 2 years. Reference TB Screening Policy.
  - 1. Staff is notified 90 days prior to the need to retest allowing for adequate scheduling to make an appointment with the Employee Health Nurse for testing.
  - 2. If the employee work night's or only weekends:
    - a. the Employee Health Nurse can notify the House Supervisors or the Infection Prevention Manager to place the PPD.
  - 3. If the employee works in the clinics:
    - a. RHC staff is able to place and read your TST.
  - 4. All TST's need to be read in 48-72 hours after being placed and can be read by an RN in Employee Health, ED, RHC, Infection Prevention Manager, or a Nursing Supervisor, when provided the yellow copy with date and site of placement.
  - 5. Employees are responsible for returning their completed form with results (yellow copy) to the mailbox outside of Employee Health within 24 hours of the reading.
  - 6. If the TST is not read in time, it will need to be repeated and read before the due date.

### 8. IMMUNIZATIONS:

- a. Employee Health vaccine screening, monitoring and administering is limited to these vaccines: Influenza, MMR, Varicella, Tdap, Hepatitis B, and Meningococcal, Hepatitis A, and TB Skin Tests. If the HCW wishes to receive other vaccinations, they will be directed to contact their primary care practitioner.
- b. Initial immunization screening is required of all HCW's prior to the start date.
- c. Annual Influenza vaccinations will be overseen by the Employee Health Nurse Specialists in collaboration with all department managers.
- d. Employee Health Standing Orders for Vaccine administration to HCW's are based on the CDC/ACIP Recommendations. They will be approved by the Medical Director annually using the CDC/ACIP order templates. Standing Orders will be stored in the Employee Health Office and on the Employee Health shared drive or Intranet.
- e. A signed consent with CDC screening questionnaire will be completed for all immunizations.
  - f. Immunizations:

### i. Influenza

- 1. Applies to all HCW's on campus during the influenza season.
- 2. Required by CDPH.
- 3. Annually, during each flu season, one dose of influenza vaccine is required if there is no documentation for that season.

### ii. MMR

- 1. Applies to all HCW's on campus: except volunteers and auxiliary.
- 2. Required by Cal OSHA.
- 3. Immune titers to all 3 or documentation of 2 doses.
- 4. Birthdate prior to 1957 does require documentation of IgG immunity to Rubella, Rubeola, and Mumps.

Title: Health Care Worker Health Screening and Maintenance Requirements	
Scope: NIHD	Manual: Employee Health
Source: Employee Health Specialist	Effective Date: 5/1/19

- 5. If immunity or vaccination history is unknown, an IgG will be drawn for Rubella, Rubeola, and Mumps.
- 6. Follow CDC recommendations/Standing Orders for booster dose or re-vaccination if the results demonstrate non-immunity or equivocal.

## iii. Varicella (chickenpox)

- 1. Applies to all HCW's on campus: except volunteers and auxiliary.
- 2. Required by Cal OSHA.
- 3. Serologic proof of immunity, documentation of 2 dose vaccination, or verification of a history of varicella or herpes zoster (shingles) by a healthcare provider are evidence of immunity.
- 4. If disease of vaccination history is undocumented or incomplete documentation, an IgG will be drawn for Varicella. Follow CDC recommendations/Standing Orders for booster dose or re-vaccination if the results demonstrate non-immunity or equivocal.

## iv. Tetanus, diphtheria, pertussis

- 1. Applies to all HCW's on campus, no exceptions.
- 2. Required by Cal OSHA
- 3. Documentation of one dose of Tdap at or after the age of 11.
- 4. Booster doses would be provided by the person's primary care practitioner.

### v. Meningococcal

- 1. Both MenACWY and MenB are recommended only for microbiologists who are routinely exposed to isolates of Neisseria meningitides.
- 2. CDC Recommended.
- 3. Every 5 years boost with MenACWY if risk continues.
- 4. When offered and refused, a declination will be required.

### vi. Hepatitis B

- 1. Required by CAL/OSHA.
- 2. Applies to NIHD HCW's who will be working in these departments/roles: Activities Director, Admission Services, Biomedical, Case Management, Central Supply, Diagnostic Imaging Techs and Radiologists, Dietary, Environmental Services, EKG/EEG, Laboratory, Language Services, Laundry, Maintenance/Plant Operations, Nursing, Medical Assistant, Pharmacy, Physical Therapy, Occupational Therapy, Respiratory Therapy, Security, Social Services.
- 3. Documentation of the 2-dose (Heplisav-B) or 3-dose (Engerix-B or Recombivax HB) series is required for HCW's who perform tasks that may involve exposure to blood or body fluids.
- 4. Request a HepBsAb titer to check for immune reactivity if there is documentation of a full series of Hep B vaccines.
- 5. If no documentation of immunizations, then the series will be restarted.
- 6. Follow CDC recommendations/Standing Orders for HCW boosters and follow up HepBsAb titers. The HCW is allowed to work at NIHD while completing Hepatitis B initial series, boosters, and titers. In this case, the HCW will also sign the Hep B declination form as an acknowledgement of risk while receiving the series or boosters.

#### vii. Hepatitis A

1. Applies to Dietary/Food Service only.

Title: Health Care Worker Health Screening and Maintenance Requirements	
Scope: NIHD	Manual: Employee Health
Source: Employee Health Specialist	Effective Date: 5/1/19

- 2. This is a 2-dose vaccine, second is due 6-12 months after the first. When the second dose is due, if the HCW changed departments within NIHD the series will be completed.
- 3. When offered and refused, a declination will be required, to acknowledge risk and document the offering. The declining employee may change their mind at any time and receive the vaccine if they remain in one of the specific departments.

### 9. VACCINE DECLINATIONS

- a. NIHD strives to ensure the safety of our patients and HCW's through vaccinations. Should a HCW decline any of the required vaccines a declination must be signed, acknowledging awareness of risk.
- b. OSHA requires signed declination for refusal of Hepatitis B vaccine. Attached.
- c. California law requires signed declination for refusal of vaccines to prevent aerosol transmissible diseases. Attached.
- d. Declinations are specific to the vaccine, for NIHD, and attached to this policy.

### 10. **EXCEPTIONS**:

- a. Volunteers and auxiliary members Health Screening Requirements are limited to the following:
  - i. Tdap once at or after age 11
  - ii. Influenza immunization annually
  - iii. TB screening per policy
- b. Travelers are required to submit a pre-hire Drug Screen. This is monitored by Human Resources and Employee Health.
- c. Vendors are not screened through Employee Health. Vendormate is used in this instance.

### 11. COSTS

- a. Initial required exams, immunizations, titers, and Tuberculosis testing is offered at no cost to NIHD employees, contracted physicians, contracted mid-level providers, volunteers, and auxiliary members upon hire.
- b. Travelers and all students will need to meet their initial requirements through a primary health care provider at their cost.
- c. Annual influenza immunization is offered to all HCW during influenza season at no cost.
- d. TB testing is offered at no cost to all HCW every two years, except for students.

### 12. **DOCUMENTATION**

- a. Documentation related to vaccinations, titers, TB screening, medical history and Physical Exam will be kept in the Employee Health files and database.
- b. Vaccine's provided by NIHD require a consent which includes a screening questions, the manufacturer, lot, expiration date, and date of published VIS that was provided. This data will be documented in the database where required and the form will be stored in the HCW's health record.
- c. Current and former NIHD employees may request a copy of their vaccine, titer, and TB Screening records from the Employee Health Nurse Specialist by completing an *NIHD Authorization to Disclose Health Information*.
- d. Travelers that may receive an influenza vaccine at NIHD are responsible to ensure a copy is stored in Medical Solutions or with their clinical staffing company.
- e. HCW Employee Health records include the screening documentation as defined in this policy per role/department: The Health History, Physical Exam as described, immunization records, database vaccine administration record, immunization consents and declinations, lab

Title: Health Care Worker Health Screening and Maintenance Requirements	
Scope: NIHD	Manual: Employee Health
Source: Employee Health Specialist	Effective Date: 5/1/19

reports/titers, all Tuberculosis Screening documentation, chest rays for positive PPD, and CAL/OSHA Fit Testing Medical Questionnaire (if fit tested), Employee Health Clearance to work, and Date of Termination.

Title: Placenta Disposal		
Scope: Perinatal Services	Manual: OB/GYN	
Source: Perinatal Nurse Manager	Effective Date:	

**PURPOSE:** To guide nursing and staff about proper care of the placenta after delivery.

### **POLICY:**

- 1. The Physician/CNM is responsible for the visual/ tactile examination of the placenta.
- 2. The provider determines whether or not the placenta needs to be sent to pathology.
- 3. If ordered, prepare and send placenta to pathology.
- 4. If there is no order to send the placenta to pathology, disposal of the placenta is treated as biohazardous waste.
- 5. The patient may request to take the placenta home. If so, please follow the "Removal of Placenta from Hospital per Patient's Request" policy. Have patient sign "Release of Placenta" form.

### **PROCEDURE:**

- 1. For general disposal of a non-pathological placenta: Place placenta in the short rectangular plastic container provided on the delivery table. Use proper PPE. Add a container of Vira Sorb super solidifier to the container. Close and place in the red bag trash in the dirty utility room.
- 2. For a placenta that needs to go to pathology:
  - a. Obtain MD/CNM order
  - b. Wear proper PPE
  - c. Transfer placenta into a white pathology bucket container
  - d. Label the container using 2 patient identifiers at the patient bedside, as per policy
  - e. Fill out "Pathology Dept Request Form".
  - f. Call lab to pick the specimen up and provide the container and the request form.
- 3. Follow "Neonatal Death, Fetal Demise & Spontaneous Abortion" policy if you have an order for genetic workup on a placenta due to miscarriage, fetal demise, or stillbirth.

### **PURPOSE:**

To ensure proper cleaning of the da Vinci Robot System Equipment To prevent harm to the delicate electronics of the system

### **POLICY:**

The environmental/surgery personnel will follow this procedure when cleaning the da Vinci Robot Console, Patient Cart, Vision Cart and System Cables.

### PROCEDURE:

- 1. Use a soft, lint-free damp cloth and a surface disinfectant product (or a pre-moistened disinfectant wipe product) to wipe the exterior surfaces of the system components and cabling after each use of the da Vinci Robot components as designated above.
- 2. Examples of cleaning products include Enviroide, CaviCide, deconex S-Wipes, neoform MED rapid and 70% isopropyl alcohol.
- 3. If using a manufacture wipe, allow the designated exposure time. <u>Cavi Wipes</u> require a 3 minute visibly wet exposure time.
- 4. Do not allow cleaning solutions to get inside the system, make sure the cloth is only damp.
- 5. Allow components to dry before use.
- 6. Clean eyepieces on the Vision Cart with lens cleaner wipes and dry with soft lint free cloth.
- 7. Clean the Touchscreen Display with cleaning wipes approved for computer displays or a lint free cloth dampened with a diluted mixture of mild detergent and water. Make sure it is damp and not wet. Dry with another lint-free cloth. **DO**NOT USE CLEANING SOLUTIONS in #2 on the Touchscreen Display.
- 8. Make sure you pay particular attention to the areas where the Surgeon Console Operator comes in contact with the system (such as the controller grips, the stereo viewer and the armrests.

## **PRECAUTIONS:**

- ➤ Do not allow liquids to come in contact with electronics.
- > Do not use a wet cloth only damp.
- ➤ Do not submerge the camera and camera cables in liquids.
- > System Cables and their receptacles contain fiber-optics. <u>DO NOT</u> blow off fiber ends with oil-free canned air duster unless you have been instructed to by Intuitive Surgical Personnel.

CALL TO ORDER

The meeting was called to order at 5:30 pm by Mary Mae Kilpatrick,

President.

PRESENT Mary Mae Kilpatrick, President

Jean Turner, Vice President Robert Sharp, Secretary M.C. Hubbard, Treasurer

Jody Veenker, Member at Large

Stacey Brown MD, Vice Chief of Staff

Kevin S. Flanigan MD, MBA, Chief Executive Officer

Kelli Davis, MBA, Chief Operating Officer John Tremble, Chief Financial Officer

ABSENT:

Tracy Aspel RN, BSN, Chief Nursing Officer

OPPORTUNITY FOR PUBLIC COMMENT

Ms. Kilpatrick stated at this time persons in the audience may speak on any items not on the agenda for this meeting on any matter within the jurisdiction of the District Board. Speakers will be limited to a maximum of three minutes each, and members of the audience will have an opportunity to address the Board on every item on the agenda. No comments were heard.

CARDIAC CARE CONCERNS

Community resident David Young provided an informational demonstration of a self-monitoring electrocardiogram device developed to assist cardiac patients. The device collects data that helps to identify triggers of cardiac disturbances, allowing the wearer to self-treat in order to prolong their health.

STRATEGIC PLAN UPDATE, WORKFORCE EXPERIENCE COMMITTEE The Northern Inyo Healthcare District (NIHD) Workforce Experience Committee provided an update on progress made toward achieving the workforce experience-related goals of the District's Strategic Plan. The Committee's presentation included the following:

- The group's main objectives are to address staff development and employee turnover
- A behavioral interview process has been implemented as a step toward assisting the District in hiring the right people
- Staff turnover statistics for 2018/2019 were compared to turnover rates for 2017/2018
- Staff churnover rates (employee movement internally within District departments, including promotions) for the last 2 years were reviewed and compared
- An overview of staff development strategies were reviewed including data on completion rates of assigned competencies
- Future efforts of the group will include conducting employee stay and exit interviews, and providing "Lunch and Learn" opportunities for District staff.

NEW BUSINESS

NORTHERN INYO HEALTH ARTICLES OF INCORPORATION AND NORTHERN INYO HEALTH BYLAWS Chief Executive Officer Kevin S. Flanigan, MD, MBA called attention to proposed Articles of Incorporation to establish a nonprofit corporation by the name of *Northern Inyo Health*. The primary purposes of the corporation are to own a supplier of durable medical equipment, and to provide other healthcare services for the benefit of District residents. The corporation would support the healthcare activities of NIHD in furtherance of charitable purposes. Doctor Flanigan also called attention by proposed bylaws for *Northern Inyo Health*, which clarify that NIHD will be the sole member of the Corporation, and that it will function as a 501 C (3) as designated by the Internal Revenue Service Code. It was moved by M.C. Hubbard, seconded by Robert Sharp, and unanimously passed to approve both the Articles of Incorporation and the Bylaws for *Northern Inyo Health* as presented, with minor edits being made to their content.

DISTRICT BOARD RESOLUTION 19-06 Doctor Flanigan also called attention to proposed District Board Resolution 19-06, which would allow for cessation of ongoing monitoring of deficiencies identified as part of the District's 2013 Centers for Medicare and Medicaid Services (CMS) survey. The deficiencies identified in 2013 were corrected 5 years ago, and the District has since passed two additional surveys with no deficiencies being noted in the same areas. It was moved by Jody Veenker, seconded by Jean Turner, and unanimously passed to approve District Board Resolution 19-06 as presented.

GROUP INTERVENTION POLICY

Stacey Brown MD, Vice Chief of Staff called attention to a policy titled *Group Intervention*, developed to identify the policy and procedure for providing Medication Assisted Treatment (MAT) Stabilization Group intervention for patients engaged in NIHD's MAT program. It was moved by Ms. Hubbard, seconded by Ms. Veenker, and unanimously passed to approve the proposed *Group Intervention* policy and procedure as presented.

DETERMINATION OF DATE FOR COMMUNITY INFORMATION NIGHT Ms. Kilpatrick opened discussion on potential dates for a Community Information night, which will be a meeting of the NIHD Board of Directors held for the purpose of addressing a topic of interest to area residents. Constituents will have the opportunity to engage in an open discussion with the Board of Directors on that topic. Following brief discussion September 25, 2019 (at 6:30 pm) was chosen to be the date of the first Community Information night to be held by the NIHD Board of Directors.

CHIEF OF STAFF REPORT Doctor Brown reported following careful review and consideration, the Medical Executive Committee recommends approval of the following District-wide policies and procedures:

1. Accepting Orders from Non-Privileged Practitioners

Northern Inyo Healthcare	District Board of Directors	August 21, 2019
Regular Meeting		Page 3 of 5
POLICY AND	2. Administration of Drugs - Patient	t's Own Medications
PROCEDURE	3 Color-Coded Wristhand Use	

POLICY AND PROCEDURE APPROVALS

- 3. Color-Coded Wristband Use
- 4. Drugs of Abuse Test McKesson 12-Drug Panel with Adulterants
- 5. IV Service When NIHD IV Room is Closed
- 6. Medication Dosing in Renal Failure
- 7. Pharmacy Confidentiality: Storage and Destruction of PHI-Containing Documents
- 8. Point of Care QuickVue Dipstick Strep A Test
- 9. Unusable Drugs

It was moved by Mr. Sharp, seconded by Ms. Hubbard, and unanimously passed to approve policies and procedures 1 through 9 as presented, with minor housekeeping changes being made to their content.

UPDATED EMERGENCY MEDICINE CORE PRIVILEGE FORM Doctor Brown also reported the Medical Executive Committee recommends approval of the updated *Emergency Medicine Core Privilege* form. It was moved by Ms. Hubbard, seconded by Ms. Turner, and unanimously passed to approve the updated *Emergency Medicine Core Privilege* form as presented.

# 2019 CRITICAL INDICATOR UPDATES

Doctor Brown additionally reported the Medical Executive Committee recommends approval of the following 2019 Critical Indicator updates:

- 1. Emergency Department
- 2. Rural Health Clinic

It was moved by Ms. Turner, seconded by Ms. Veenker, and unanimously passed to approve both 2019 Critical Indicator updates as presented.

#### PHYSICIAN RECRUITMENT UPDATE

Doctor Brown also provided a physician recruitment update, noting the following:

- Urologist Colby Perkins-Souders, MD has accepted a 2-year fellowship on pelvic floor reconstruction, and she will not come on board at NIHD until the conclusion of that fellowship.
- Locums urologist Matthew Ercolani, MD is expected to begin providing urology services at the District at the start of September.
   Dr. Ercolani is trained in the use of robotic surgery equipment.
- Orthopedist Bo Loy, MD will begin providing orthopedic services at NIHD the first week in September.
- Hospitalists Stephan Shunk, MD and Monica Mehrens, DO both wish to increase the number of shifts that they work at NIHD.

#### COMMUNITY HEALTH NEEDS ASSESSMENT

Doctor Flanigan presented an overview of the District's most recently completed Community Health Needs Assessment (CHNA), and provided a history of the Districts' past CHNA efforts. Doctor Flanigan's presentation included the following:

 This year's assessment was a collaborative effort of the Inyo County Healthcare Coalition, which includes representatives from Inyo County Health and Human Services; Northern Inyo Healthcare District; Southern Inyo Healthcare District (SIHD); Wild Iris; Owens Valley Career Development Center; and Inyo

- Mono Advocates for Community Action.
- The assessment was conducted for the purpose of assessing the healthcare needs of this community and developing priority focus areas for Community Health and Wellness efforts going forward.
- NIHD hired Wipfli LLP to do a financial data dive on charges and billings for NIHD and SIHD as part of the needs assessment. The County of Inyo retained the services of Kemper Consultant Group to help compile the data collected for the assessment.
- As a result of the CHNA, the Coalition has developed an *Inyo County Strategic Roadmap* to address the healthcare areas of focus identified in the assessment.
- The CHNA identified the following priority focus areas:
  - 1. Behavioral Health Mental Health and Substance Use Disorders
  - 2. Access to Patient Services
  - 3. The 3rd area of priority focus is yet to be determined

The *Strategic Roadmap* contains strategies and next steps going forward, and identifies potential partners, funding sources, and possible barriers to future efforts. Doctor Flanigan noted that the primary focus of the NIHD September Board of Directors meeting will be Strategic Planning, with the intent of identifying what the NIHD Board of Directors and leadership wants to see the District work on in the next two years.

#### **CONSENT AGENDA**

Ms. Kilpatrick called attention to the Consent Agenda for this meeting, which contained the following items:

- Financial and Statistical reports as of April 30, 2019
- Approval of minutes of the July 13, 2019 special meeting
- Approval on minutes of the July 17, 2019 regular meeting
- Approval of minutes of the August 3, 2019 special meeting
- Medical Staff Services Pillars of Excellence for July 1, 2018 through June 30, 2019
- Policy and Procedure annual approvals

It was moved by Mr. Sharp, seconded by Ms. Veenker, and unanimously passed to approve all 6 Consent Agenda items as presented.

#### BOARD MEMBER REPORTS

Ms. Kilpatrick asked if any members of the Board of Directors wished to comment on any items of interest. Director Hubbard noted that Doctor Flanigan will provide a Healthy Lifestyles talk tomorrow night, on the subject of the transition toward increased provision of outpatient services in order to meet community needs. Director Veenker commented that there was an extremely positive community response to the recently held Opioid Summit, and that the event drew approximately 200 attendees. Director Kilpatrick stated NIHD will again sponsor a booth at the Eastern Sierra Tri-County Fair, and noted that Board members are welcome to work the booth and participate in providing information for members of the community. No other comments were heard.

# ADJOURNMENT TO CLOSED SESSION

At 7:45 pm Ms. Kilpatrick reported the meeting would adjourn to Closed Session to allow the Board of Directors to:

- A. Discuss trade secrets, new programs and services (estimated public session date for discussion yet to be determined) (*Health and Safety Code Section 32106*).
- B. Conference with Labor Negotiators; Agency Designated Representative: Irma Moisa; Employee Organization: AFSCME Council 57 (pursuant to Government Code Section 54957.6).
- C. Confer with Legal Counsel regarding threatened litigation, 1 matter pending (pursuant to Government Code Section 54956.9(d)(2)).
- D. Conduct Public employee performance evaluation, Chief Executive Officer (*pursuant to Government Code Section 54957*).

RETURN TO OPEN SESSION AND REPORT OF ACTION TAKEN At 10:23 pm the meeting returned to Open Session. Ms. Kilpatrick reported that during Closed Session it was moved by Director Kilpatrick, seconded by Jody Veenker, and unanimously passed to approve appointing Directors Sharp and Hubbard to an Ad Hoc Committee to review documents and approve signing if acceptable, for the sale of 153 Pioneer Lane including a lease back of the property. Funds from the sale will be designated for the purchase back of the land. The Board took no other reportable action.

**ADJOURNMENT** 

The meeting was adjourned at 10:24 pm.

#### Compliance Report September 2019

- 1. Comprehensive Compliance Program review
  - a. As September 6, 2019, 92.7% District's employee (including temporary, traveler, and contract workers) workforce have reviewed the Compliance Program. Twenty of the 39 remaining who are due to read the program are within 90 days of their first day of employment. This number fluctuates due to employee turnover.
  - b. 79.5% of District workforce have completed HIPAA training for CY 2019.

#### 2. Breaches

- a. Calendar Year (CY) 2019 (attachment A)
  - 51 alleged breaches of PHI (Protected Health Information) potentially affecting more than 468 patients have been investigated by the Compliance Office
  - ii. 4 of the alleged breaches of PHI have been reported to California Department of Public Health (CDPH) and/or the Office of Civil Rights (OCR)
    - 1. CDPH has completed investigation of two cases. Both were substantiated, but assigned no deficiency.
    - 2. Two (2) cases are still pending CDPH investigation.
    - 3. Several cases from prior years are still pending letters of findings, indicating that at least several may incur some level of deficiency and penalty.
  - iii. Eleven of the reported potential breaches/privacy concerns are currently under investigation by the NIHD Compliance Department.

### 3. Issues and Inquiries

- a. CY 2019 Several hundred requests for research and input on a wide variety of topics have been made to the Compliance Department.
  - i. Compliance and regulation research tops the list.
  - ii. Policy advice and research
  - iii. Potential compliance concerns that do not reach the level of a full investigation. (Usually require training and education)
- b. Compliance currently reviews all new referring physicians to verify they are not on a Federal or State exclusions list. To date in 2019, Compliance has verified several

150 Pioneer Lane Bishop, CA 93514 (760) 873-5811 www.nih.org

hundred providers. It is considered fraud to bill any government payer for diagnostic or treatment claims, if ordered by an excluded provider.

i. Compliance has identified two referring providers on an exclusions list. We have notified Administration, and have properly addressed the issues.

#### 4. Audits

- a. Employee Access Audits (attachment B) The Compliance Office manually completes audits for access of patient information systems to ensure that employees access records only on a work-related, "need to know," and "minimum necessary" basis.
  - i. The HIPAA and HITECH Acts imply that organizations must perform due diligence by actively auditing and monitoring for appropriate use of PHI. These audits are also required by the Joint Commission and are a component of the "Meaningful Use" requirements.
  - ii. Access audits monitor who is accessing records by audit trails created in the systems. These audits allow us to detect unusual or unauthorized access of patient medical records.
  - iii. Compliance performs between 300-500 audits monthly.
    - 1. Each audit ranges from hundreds of lines of data to thousands of lines of data.
  - iv. Protenus has been selected to provide semi-automated auditing software services to NIHD, however, Athena has been unable to meet its requirements for the data feeds. Protenus will be reassessed as the changes to NIHD EHR evolve.
- b. Business Associates Agreements (BAA) audit
  - i. Contracts are currently under review to ensure all vendors, individuals, and entities providing services that access, disclose, retain, or transmit PHI for NIHD have an up-to-date Business Associates Agreement.
  - ii. We currently have around 150 Business Associates Agreements.
- c. PACS (Picture Archival and Communication System) User Access Agreements Compliance is now processing access agreements for external entities/providers to gain access to the NIHD PACS Portal (electronic Imaging system).
- d. HIPAA Security Risk Assessment Due November 2019

150 Pioneer Lane Bishop, CA 93514 (760) 873-5811 www.nih.org

- i. Annual requirement to assess security and privacy risk areas as defined in 45 CFR 164.3. Review of 157 privacy and security elements performed in conjunction with Information Technology Services.
- ii. Will work with ITS (Information Technology Services) to develop and update the Risk Management plan.
- iii. NIHD is currently in a "soft roll out" of the VendorMate (GHX) vendor credentialing software. This allows us to be compliant with our Vendor Credentialing Policy, and several facility security elements of 45 CFR 164
- 5. Conflicts of Interest questionnaires
  - a. Compliance sent the Conflict of Interest Questionnaires out in the beginning of August 2019.
  - b. We have received 47% of completed questionnaires from NIHD workforce.
  - c. Those received have been preliminarily processed and are awaiting review by the Business Compliance Team.
- 6. CPRA (California Public Records Act) Requests
  - a. The Compliance office has responded to 17 CPRA request in CY 2019.
    - i. 3 requests throughout the year for companies that harvest purchasing data from healthcare organizations to aid their marketing products.
    - ii. 1 from Transparent California
    - iii. 8 are from District resident, Ms. Freeman.
    - iv. 5 requests have been from the ASCFME organizer or their legal representatives.
- 7. Compliance Workplan (attachment C)
  - a. The Department of Health and Human Services Office of Inspector General's (OIG) creates an annual workplan for auditing, based on areas of high concern for fraud, waste, and abuse. The Centers for Medicare/Medicaid Services Medicare Administrative contractors (MACs) also create an annual audit workplan.
  - b. OIG recommends that annual Compliance Department workplans are created, based on the facility Compliance Program, and the OIG and MAC workplans, along with areas of risk for the organization.
  - c. The attached work plan was updated in September 2019 for progress and is scheduled for review in the Compliance and Business Ethics Committee.

150 Pioneer Lane Bishop, CA 93514 (760) 873-5811 www.nih.org

- 8. Unusual Occurrence Reports (UOR) (Attachment D)
  - a. All unusual events are reported through the UOR system. (complaints, med errors, unusual events, Corrective Action Plan tracking items, etc)
  - b. See attached reports please note while data has been validated, we are still getting the reports "dialed in"
    - i. Some labeling needs to be corrected
    - ii. Some layout features need to be corrected
  - c. ComplyTrack- tracking software system went live on 4/15/2019.
- 9. CDPH Licensing Survey Response Monitoring (Attachment E please note that the corrective action plan portion of the spreadsheet was printed larger and placed in front of the pages with the complete charts)
  - a. Compliance has been working with Department leadership teams to follow corrective actions and monitor for sustained compliance. Those metrics will be reported here, no less than annually. (see attached spreadsheet)
    - i. E 239 Referral arrangements from non-staff ordering providers. Monitoring in progress 09/2019
    - ii. E 242 Pediatric Consultations Monitoring in progress 09/2019
    - iii. E 276 Code Amber drills Goal achieved. Monitoring complete.
    - iv. E 280 RN Competency Validations Goal achieved. Monitoring complete.
    - v. E 475 Sterile compounding area ceiling Goal achieved. Monitoring complete.

Refrigerator temperature monitoring – Goal achieved. Monitoring complete.

- vi. E 479 Malignant Hyperthermia cart Goal achieved. Monitoring complete.
- vii. E 480 Add crash cart medication list to Crash Cart Policy Goal achieved. Monitoring complete
- viii. E 485 Titratable sedatives and sedation scale use Goal achieved. Monitoring complete
  - ix. E 503 Proper storage of clove oil in ED dental box Clove oil removed from supplies and supply list. Goal achieved. Monitoring complete
  - x. E 511 Beyond-use-date labeling of medications Goal achieved. Monitoring complete
  - xi. E1363 Expired supply in crash cart Monitoring in progress 09/2019

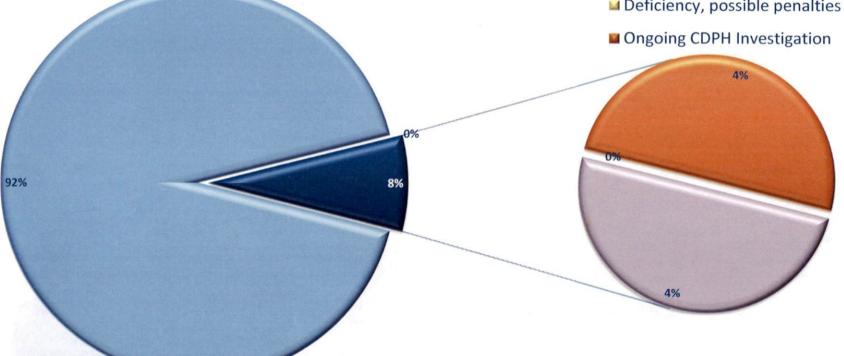

150 Pioneer Lane Bishop, CA 93514 (760) 873-5811 www.nih.org

- xii. E 2115 TB Surveillance program letter of compliance sent to CDPH. No additional monitoring is required.
- xiii. E 2150 Infection Prevention Program monitoring Monitoring in progress 04/2019
  - 1. Infusion supplies Goal achieved. Monitoring complete
  - 2. Cleaning Wet time ongoing monitoring 09/2019
  - 3. Paper towel installed near sink Complete
  - 4. Sterilized Instrument Packs Goal achieved. Monitoring complete
  - 5. Crash Cart Supplies Goal achieved. Monitoring complete
  - 6. Patient Refrigerators marked- Goal achieved. Monitoring complete
  - 7. Single Use Thickener packets Goal achieved. Monitoring complete
- xiv. E 2151 Workforce N95 mask fit testing Goal achieved. Quarterly monitoring for 3 additional quarters.
- xv. E 2354 Equipment preventative maintenance stickers Goal achieved. Monitoring complete
- 10. The Joint Commission Survey Response
  - a. Submitted and accepted
  - b. Will provide monitoring in next quarterly report

# 2019 Breach Outcomes

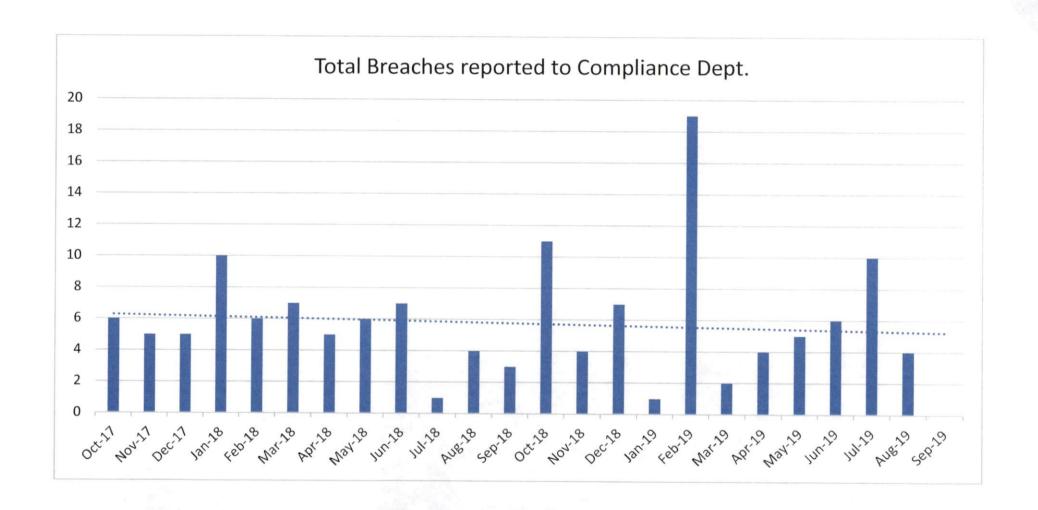

51 Breach investigations potentially affecting 468 patients

- Near-miss breach (no CDPH reporting)
- Reported to CDPH
- Unsubstantiated
- Substantiated, No Deficiency
- Deficiency, possible penalties

Con	pliance Communication		
11.	Review investigation log. Prepare summary report for Compliance Committee on types of issues reported and resolution		Quarterly 2019
12.	Develop a report that evidences prompt documenting, processing, and resolution of complaints and allegations received by the Compliance Department.	Complytrack	Completed April 2019
13.	Document test and review of Compliance Hotline.		Completed 09/06/2019
14.	Physically verify Compliance hotline posters appear prominently on employee boards in work areas.		Verified 9/2019
Con	pliance Enforcement and Sanction Screen	ing	
15.	Verify that sanction screening of all employees/workforce and others engaged by NIHD against OIG List of Excluded Individuals and Entities has been performed in a timely manner, and is documented by a responsible party.	Ongoing – HR performs employees/travelers/temps monthly. Compliance verifies new providers. MSO verifies all medical staff. Accounting verifies all vendors.	Current through 8/31/2019
16.	Develop a review and prepare a report regarding whether all actions relating to the enforcement of disciplinary standards		Stalled
17.	are properly documented. Audits		
	a. Arrangements with physician (database)		
	b. EMTALA		
	c. Cost reports	Wipfli	
	<ul><li>d. Payment patterns</li><li>e. Bad debt/ credit balances</li></ul>	Mill work with I Trouble	
	f. OPS – Home health and DME	Will work with J. Tremble. HHS OIG target	Initial meet with P West 1/2019
	Lab services	MAC target	
	Imaging services (high cost/high usuage)	MAC target	
911526	Rehab services	HHS OIG workplan	
18.	Ensure that high risks associated with HIPAA and HITECH Privacy and Security requirements for protecting health information undergo a compliance review.		Due November 2019
	<ul><li>a. Annual Security Risk Assessment</li><li>b. Periodic update to SRA</li></ul>		Due November 2019
	c. Monthly employee access audits		Current through 09/2019
19. 20.	Audit required signage Audit HIMS scanned document accuracy		Completed 07/2019

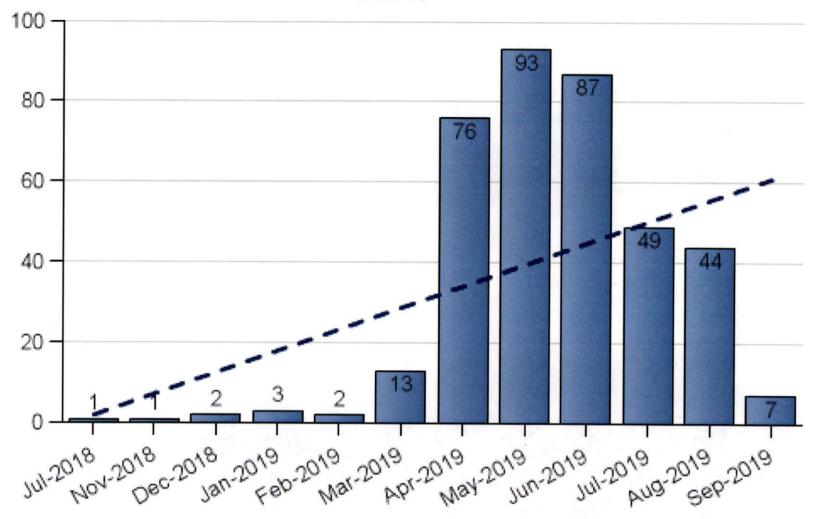

21.	Develop metrics to assess the effectiveness and progress of the Compliance Program		
22.	Implement automated access monitoring/auditing software (Protenus)		Stalled. Athena unable to complete file feeds or datalake/data warehouse
23.	Review CMS CoPs (CAH)		Delayed due to restructure
Res	ponse to Detected Problems and Corrective	ve Action	
24.	Verify that all identified issues related to potential fraud are promptly investigated and documented		8/2019 – and ongoing
25.	Review all corrective action measures taken related to compliance to verify they have been completed and validated as being effective. Prepare a summary report for the CBEC		Monitoring for CDPH/TJC CAPS in progress
26.	Conduct a review that ensures all identified overpayments are promptly reported and repaid.	Working with WJ, MET, HIMS dept to review all audits, recoupments	7/2019
27.	UOR tracking and trending – UOR/Unusual occurrence reporting is now a function of the Compliance Department.		See UOR reporting attached to Board Report (9/2019)
	<ul> <li>a. Provide trend feedback to leadership to allow for data driven decision-making</li> </ul>		Quarterly (9/2019)
	I. Overall QRR process		Sept 2019
	II. Workplace Violence	To be	Sept 2019
	III. Sharps IV. Overweight laundry		Sept 2019
28.	Pioneer Home Health and Hospice of the Owens Valley Compliance Review, ACE agreement		In PDSA cycle 8/2019
29.	Patient complaints	In Progress	Restructure adds these to Compliance Workplan
30.	Breach Investigations	On-going	On-going – see Compliance reports

2019 Compliance Work Plan – updated 9/2019

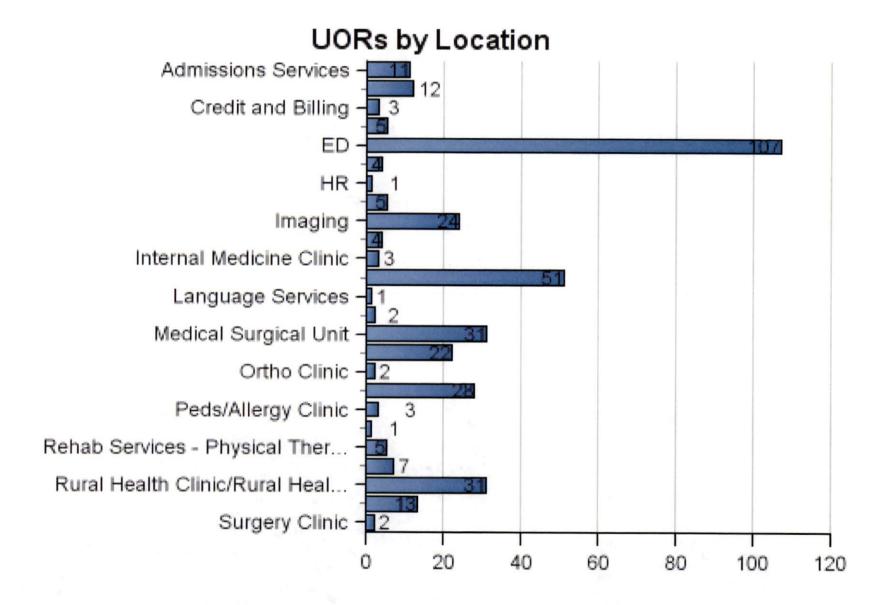

V

# **UORs**

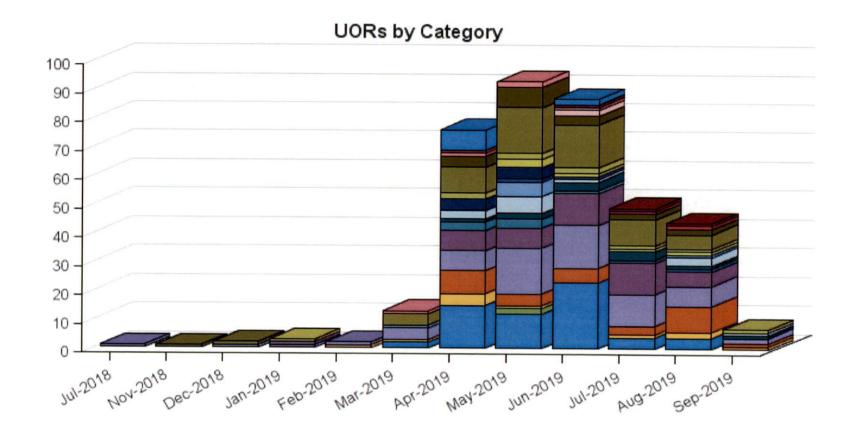

UOR reporting through the ComplyTrack System started on 04/15/2019.

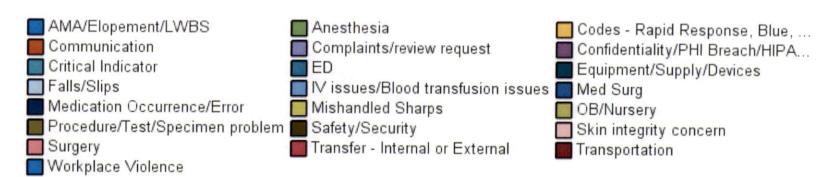

Some incidents show up before this date, as they were reported after 4/15, but the incident occurred prior to that date.

Compliance is working with report writing experts at Complytrack to ensure all labeling shows up. I currently do not have the ability to get the additional lines of information to print on the chart.

■ Elopement ■ Against Medical Advic... ■ Left without being see...

Emergency updated their critical indicators in July to no longer include Against Medical Advice.

The drop off in reported "AMA" UORs is explained by this change.

We are working to break out AMA/Left Without Being Seen/Elopements by month and by location.

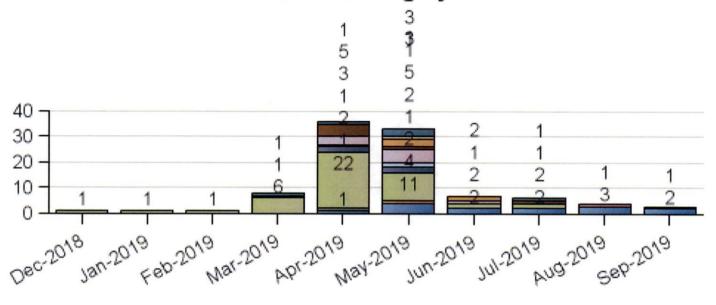

# **UORs Related to Nursing**

The question on the UOR form asking about whether nursing was involved was rephrased to more clearly state whether "Nursing Practice" may have had an effect on the UOR in late May, with input of some of our nursing team. This greatly reduced the "UORs related to nursing" and appears to be a much better reflection of whether nursing practice may need to be reviewed.

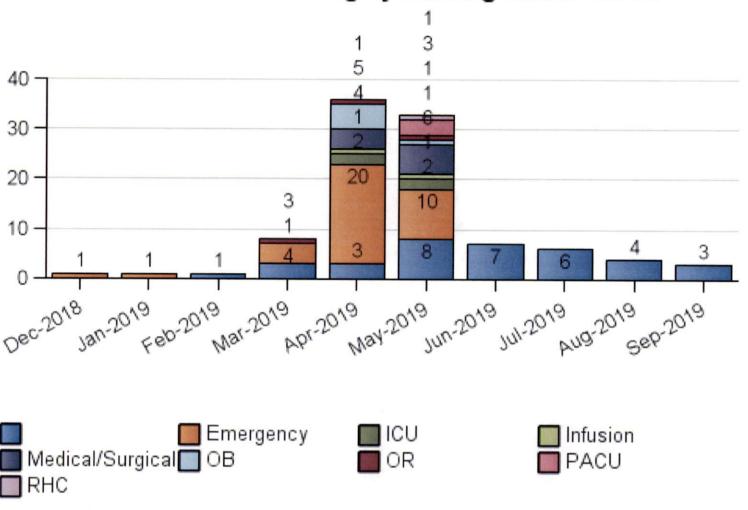

# UORs Related to Nursing by Location

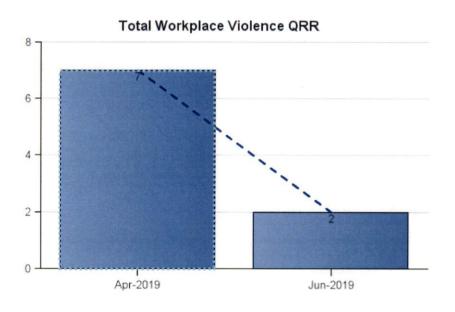

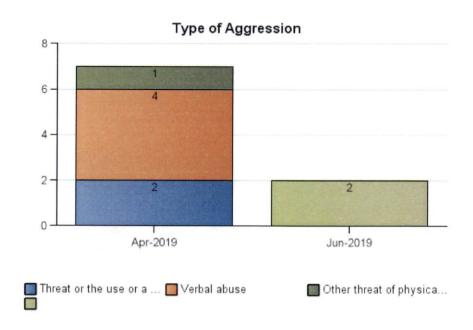

The question on the UOR form asking about whether nursing was involved was rephrased to more clearly state whether "Nursing Practice" may have had an effect on the UOR in late May, with input of some of our nursing team. This greatly reduced the "UORs related to nursing" and appears to be a much better reflection of whether nursing practice may need to be reviewed.

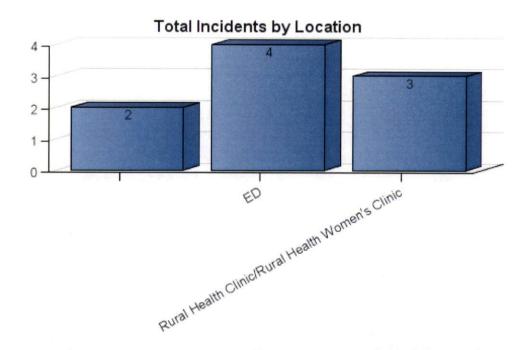

# UORs Related to Nursing by Nursing Unit Involved

The question on the UOR form asking about whether nursing was involved was rephrased to more clearly state whether "Nursing Practice" may have had an effect on the UOR in late May, with input of some of our nursing team. This greatly reduced the "UORs related to nursing" and appears to be a much better reflection of whether nursing practice may need to be reviewed.

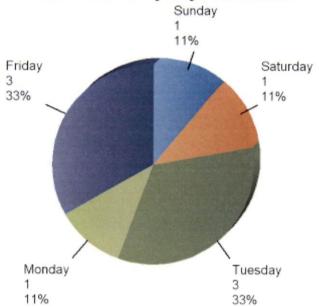

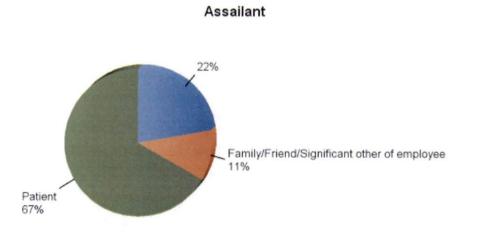

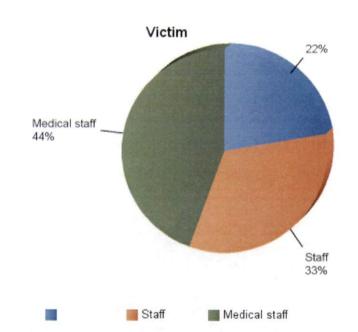

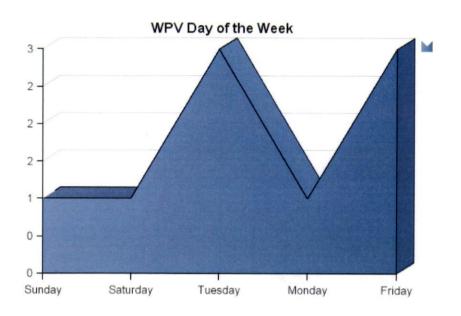

#### Total Incidents by Day of the Week

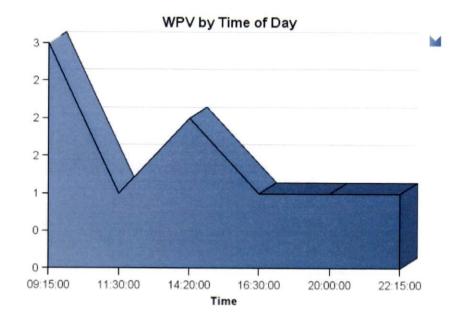

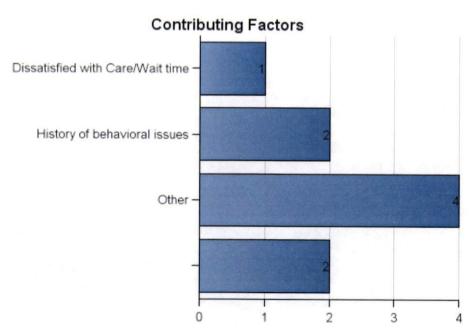

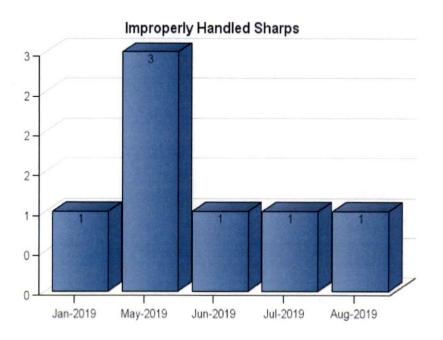

Family/Friend/Significa... Patient

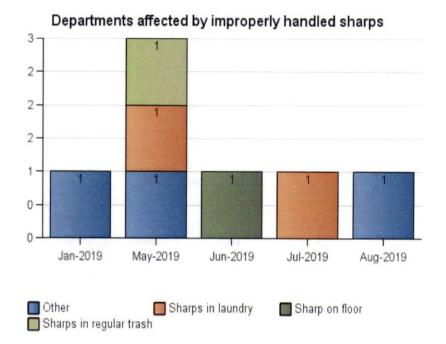

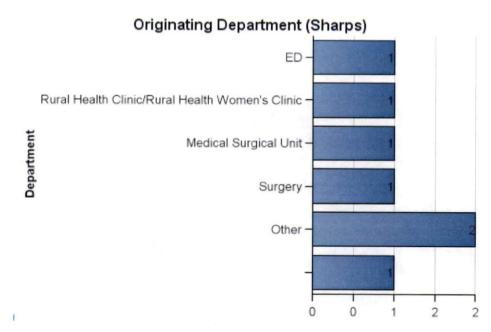

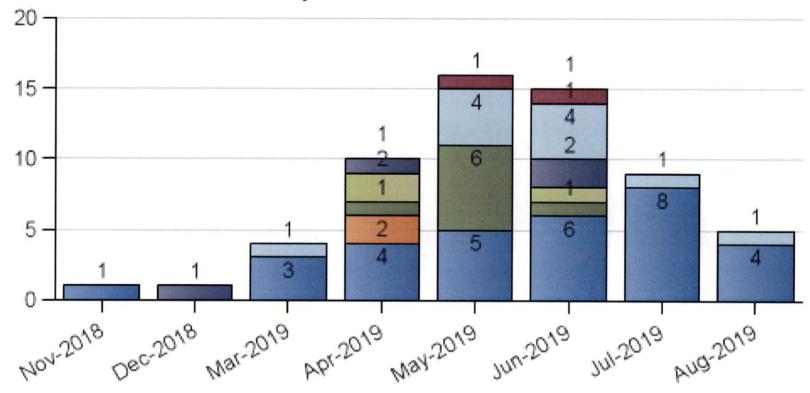

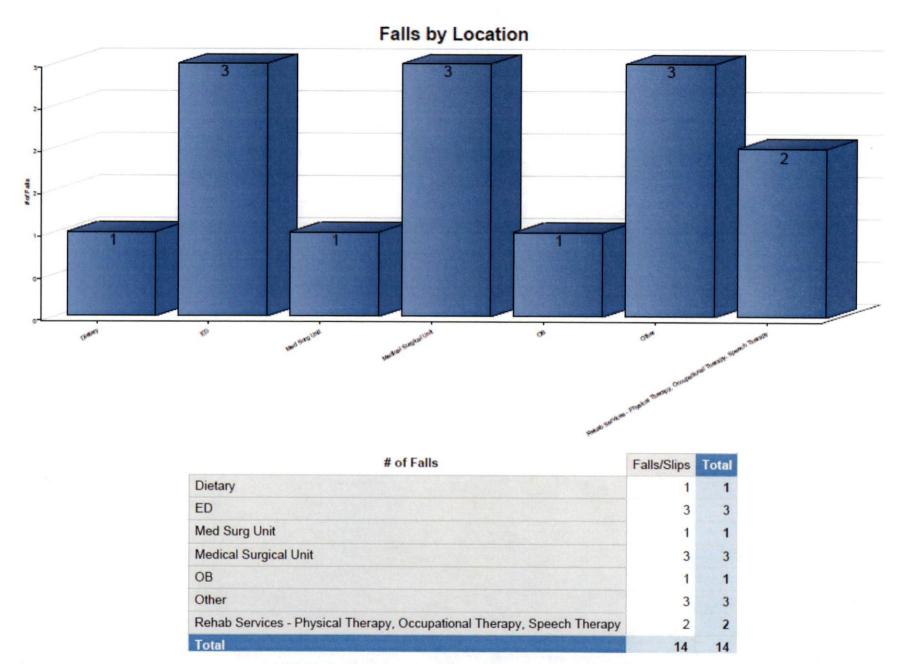

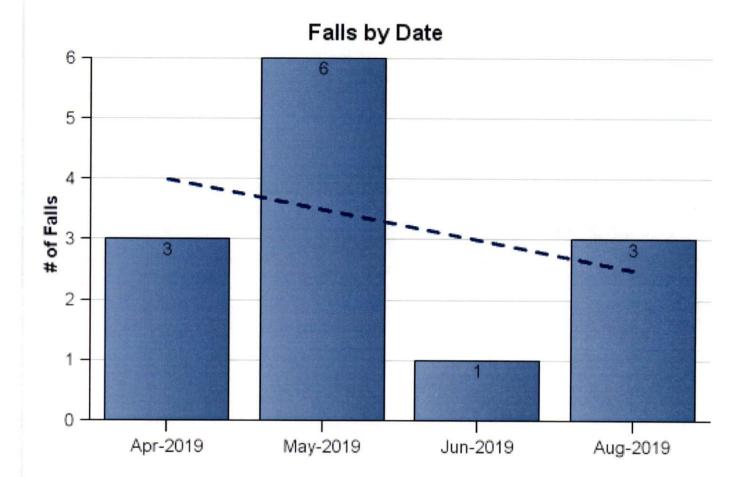

### Specimen Issues

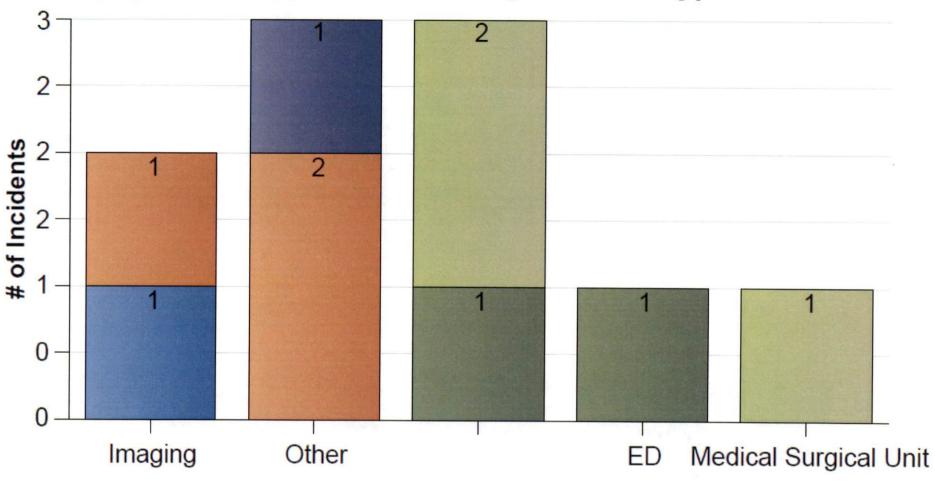

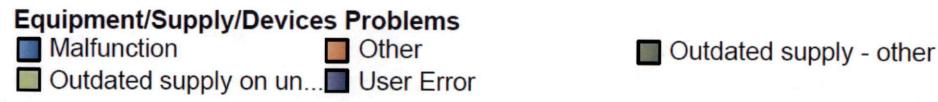

14 falls on this chart as it is from the beginning of reporting in ComplyTrack through 9/6/2019. 13 falls on the next chart, as it only counts falls through 88/31/2019

# of Falls	Apr-2019	May-2019	Jun-2019	Aug-2019	Total
Not Identified	2	4		1	7
Confused				2	2
Oriented	1	2	1		4
Total	3	6	1	3	13

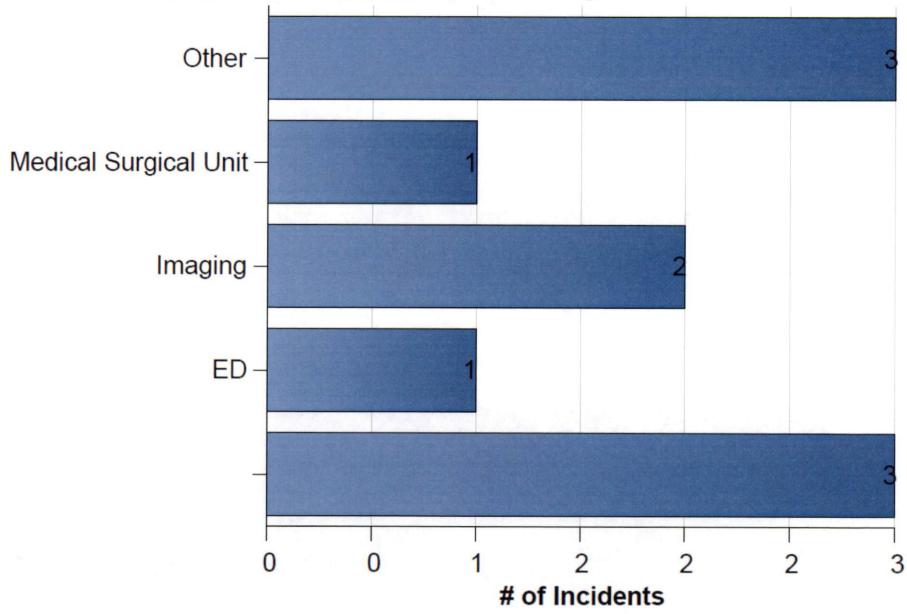

# Equipment/Supplies/Devices by Incident Type/Location

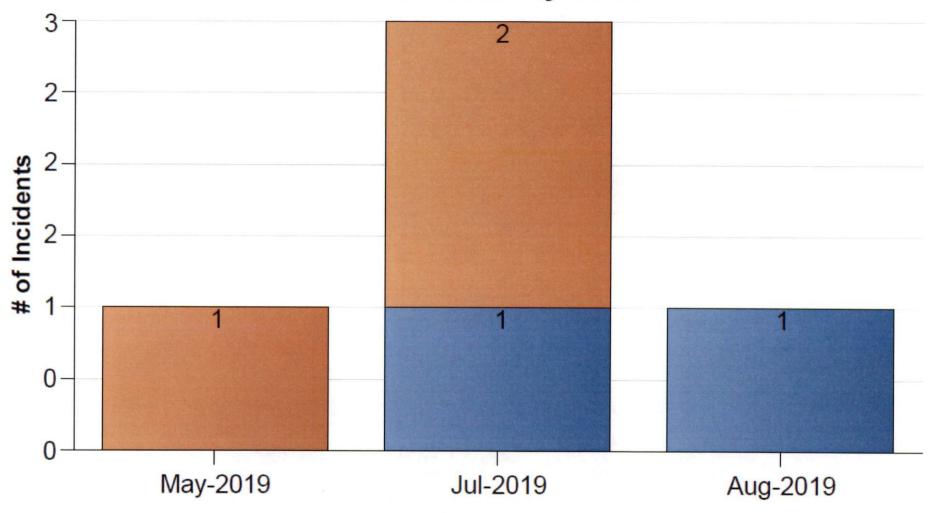

We are working with Complytrack report writing experts to fix formatting and labeling issues, as seen in this graph.

# **Equipment/Supplies/Devices by Location**

We are working with Complytrack report writing experts to fix formatting and labeling issues, as seen in this graph.
