

Northern Inyo Healthcare District
Medical Staff Office

150 Pioneer Lane
Bishop, CA 93514
(760) 873-2136

Northern Inyo Healthcare District is looking for a Board Certified/Board Eligible Internist to join our outpatient clinic team. Geriatric certification preferred but not required.

About the position:

- Practice aside two other internists. You will coordinate your practice with our internist who is early in her career and building her practice. A majority of time would be spent providing primary care to medically complex and geriatric patients and the rest of the time would be spent seeing post-acute and long-term residents at the local nursing home. There would also be opportunities to provide internal medicine consultation as needed.
- Work closely with a nurse practitioner, who also has her own primary care panel. Precept her complex cases as needed. Provide coverage for her patients when she is out of the office. Nurse practitioner will provide urgent care for all panels, transition of care management visits for hospitalized patients without primary care providers, vacation coverage, and care for nursing home patients.
- Invasive procedures not necessary, and are supported by Diagnostic Radiology, orthopedics, urology, general surgery, and family medicine services. However, ability to perform small office-based procedures is a plus (skin biopsies, certain joint injections, suture removal).
- Hours are 8 half-days per week, Monday – Friday. Patient care hours are somewhat flexible per provider. Vacation to be coordinated with other providers. We provide 24/7 on-call services for our patients. When the office is closed, phone call alternates with other clinic physicians for a week at a time. It will be approximately 1 out of 4 weeks on call. The majority of call periods are low volume and no in-person coverage required.

About Northern Inyo Healthcare District:

Northern Inyo Healthcare District is a 25-bed Critical Access Hospital located in Bishop, CA with associated clinics. It is a rural hospital setting and while some specialist support is available locally, most specialist support is attained via telephone and consultation out of the area.

About Bishop, CA:

Centrally located in the Eastern Sierra, your family will enjoy world class rock climbing, miles of hiking trails, fishing, biking, and skiing Mammoth Mountain. Spend your weekends exploring the Pacific Crest Trail, Yosemite National Park or Death Valley. We are also an ideal location for artists.

About the benefits:

Full benefits are available including liability coverage. Sign-on bonus, moving expenses and student loan repayment options are available. If you are looking for more information please call or email Dianne Picken at 760-873-2136 or med.staff.admin@nih.org.
