Chief of Staff Report

Medical Executive Committee Report, April 2019
Medical Staff Policy and Procedure approvals

Medical Staff Services Pillars of Excellence

Medical Staff Services Pillars of Excellence report

Financial Report

Financial Report as of December 31, 2018

Policy and Procedure, Resuscitation Quality Improvement

RQI Policy and Procedure approval

Consent Agenda

Minutes, March 13 2019 Special meeting
District Board Minutes, March 20 2019 Regular Meeting
Policy and Procedure annual approvals, April 2019
NIHD Auxiliary Bylaws annual approval
Chief of Staff Job Description
1. Call to Order (at 5:00 pm).

2. Adjournment to Closed Session to/for:
   A. Conference with Labor Negotiators; Agency Designated Representative: Irma Moisa; Employee Organization: AFSCME Council 57 (pursuant to Government Code Section 54957.6).

3. Return to Open Session and report of any action taken in Closed Session.

4. At this time persons in the audience may speak on any items not on the agenda on any matter within the jurisdiction of the District Board (Members of the audience will have an opportunity to address the Board on every item on the agenda. Speakers are limited to a maximum of three minutes each).

5. Strategic Plan update, Workforce Experience Committee report (information item).

6. Chief of Staff Report; Allison Robinson MD:
   A. Policy and Procedure approvals (action items):
      1. Preoperative Monitoring of Storage Devices and Units
      2. Crash Cart and Defibrillator Check Policy
      3. Newborn and Pediatric Abduction Prevention Safety and Security
      4. Responsibilities of Nursing Students and Hospital Staff
      5. Standardized Procedures for Medical Functions in the Emergency Department
      6. Diet Texture Ordering Protocol
      7. Laboratory Home Collections
      8. Lymphedema Treatment
      9. Standards of Care for the Swing Bed Resident

7. New Business
   A. Medication-Assisted Treatment program report (information item).
   B. Robotic Equipment update (action item).
   C. Medical Staff Services Pillars of Excellence, quarterly report (information item).
   D. Pharmacy update (information item).
E. Financial report as of December 31, 2018 (information item).
F. Policy and Procedure approval, Resuscitation Quality Improvement (RQI) (action item).

Consent Agenda (action items)

8. Approval of minutes of the March 13 2019 special meeting
9. Approval of minutes of the March 20 2019 regular meeting
10. Policy and Procedure annual approvals
11. Approval of new Chief of Staff job description
12. Northern Inyo Healthcare District Auxiliary bylaws annual approval

13. Reports from Board members (information items).
14. Adjournment to closed session to/for:
   A. Discuss trade secrets, new programs and services (estimated public session date for
discussion yet to be determined) (Health and Safety Code Section 32106).
   B. Public employee performance evaluation, Chief Executive Officer (pursuant to Government
   Code Section 54957).
15. Return to open session and report of any action taken in closed session.

In compliance with the Americans with Disabilities Act, if you require special accommodations to
participate in a District Board meeting, please contact administration at (760) 873-2838 at least 48 hours
prior to the meeting.
The Medical Executive Committee met on this date. Following careful review and consideration, the Committee agreed to recommend the following to the NIHD Board of Directors:

A. Policies and Procedures (*action items*)
   1. Preoperative Monitoring of Storage Devices and Units
   2. Crash Cart and Defibrillator Check Policy
   3. Newborn and Pediatric Abduction Prevention Safety and Security
   4. Responsibilities of Nursing Students and Hospital Staff
   5. Standardized Procedures for Medical Functions in the Emergency Department
   6. Diet Texture Ordering Protocol
   7. Laboratory Home Collections
   8. Lymphedema Treatment
   9. Standards of Care for the Swing Bed Resident
Title: Temperature Monitoring of Storage Devices and Units

Scope: Anesthesia, Biomedical Engineering, Diagnostic Imaging, Environmental Services, ICU/CCU, Infusion Center, Laboratory, Maintenance, Medical Staff, Nursing Administration, PACU, Perinatal, Pharmacy, Plant Services, Purchasing, Rehabilitation Services, Respiratory, Rural Health Clinic, Safety, Sterile Processing, Surgery

Source: Chief Operating Officer

Effective Date:

PURPOSE:
To ensure that units and devices storing temperature-dependent items are monitored in accordance with applicable state and federal regulations and that such monitoring results in temperature corrections that keep stored contents within allowable legal and safe temperatures.

POLICY:
1. Storage devices such as refrigerators, freezers, and warmers will be continuously temperature monitored via real-time electronic monitoring equipment.

2. Such electronic monitoring equipment shall be capable of notifying specific personnel when temperatures fluctuate above or below set parameters.

3. Responsibility for the monitoring of temperature-dependent storage devices shall be assigned to departments in accordance the contents of the device as defined by state law and regulation regardless of the location of the devices:
   a. All drugs (agents bearing the federal legend “Rx Only”) requiring storage in temperature-dependent devices shall be assigned to the Pharmacy Department.
   b. All food and beverages requiring storage in temperature-dependent devices shall be assigned to the Dietary Department.
   c. All reagents, blood, blood derivatives and human derived samples requiring storage in temperature-dependent devices shall be assigned to the Laboratory Department.
   d. All tissue and bone used in surgical procedures requiring storage in temperature-dependent devices shall be assigned to the Surgery Department.
   e. All substances used in diagnostic imaging which are not drugs and are under the legal purview of Radiological Services as defined in California Administrative Codes shall be assigned to the Diagnostic Imaging Department.
   f. All other rehab procedures requiring temperature-dependent storage shall be assigned to the Rehabilitation Services Department.
   g. All blanket warmers used in the nursing departments will be assigned to the Nursing Department.
   h. All breastmilk refrigerators used in the perinatal department and for lactating staff members will be assigned to the Nursing Department.

4. Each department assigned responsibility for monitoring and responding to fluctuations outside of established temperature settings will establish standards for responding to temperature fluctuations in accordance with industry standards.
Title: Temperature Monitoring of Storage Devices and Units

Scope: Anesthesia, Biomedical Engineering, Diagnostic Imaging, Environmental Services, ICU/CCU, Infusion Center, Laboratory, Maintenance, Medical Staff, Nursing Administration, PACU, Perinatal, Pharmacy, Plant Services, Purchasing, Rehabilitation Services, Respiratory, Rural Health Clinic, Safety, Sterile Processing, Surgery

Source: Chief Operating Officer

Effective Date: 2/25/19

5. Each department assigned responsibility for monitoring and responding to fluctuations outside of established temperature settings will identify individuals who will perform the following functions:

   a. Respond to notifications by the monitoring system of fluctuations outside of established temperature settings in accordance with individual department standards.
   b. Electronic documentation of the response taken
   c. Provision of temperature log(s) when requested by hospital management, regulatory inspectors or surveyors.

6. All departments with temperature monitoring responsibility shall be trained in use of the electronic temperature monitoring system and in the policy and procedures as established.

7. Standardized training on temperature monitoring system will be provided and available to all designated staff.

Responsibility for review and maintenance: Chief Operating Officer
Index Listings:
PURPOSE:
To ensure availability of all drugs, equipment, and supplies necessary to initiate advanced life-support measures and ensure uniformity of emergency carts throughout Northern Inyo Hospital.

POLICY:

1. Ensuring that crash cart contents are complete, not outdated, or damaged will be the responsibility of each department.
   a. A staff member will check the crash cart a minimum of once per day while the unit is open. If the unit is closed, the staff member will write closed under the day with no check. Upon reopening of the unit the crash cart will be checked.
   b. The crash cart expiration spreadsheet will be checked monthly. All drawers and contents must be visually inspected annually.
   c. A QRR will be completed anytime outdated supplies are found.

2. Each unit will be responsible to provide all items not under the responsibility of Pharmacy or Cardiopulmonary Department. Pharmacy supplies will be in a sealed tray with the earliest expiration date marked on the outside of the package. Two sealed trays will be stored for quick restocking of a crash cart after use. Respiratory supplies will be checked by respiratory staff.

3. Pharmacy shall be responsible for maintaining all pharmaceuticals in the crash cart. This will include drawers one and two and part of drawer five. Pharmacy will have the contents of drawer one and two placed in four locked drawer inserts with the earliest outdate marked. Drawer five contains a sealed tray with IV fluids with the earliest expiration marked on the outside of the package.

4. Respiratory Therapy (RT) will be responsible for all items located in drawer six of the crash cart. This will include a locked intubation roll for pediatric and adult patients. RT will also be the responsible to ensure all intubation equipment is in good working order.

5. All crash carts will be checked as per the following:
   a. The defibrillator and cardiac monitor shall be checked and appropriately documented for performance on both battery and electrical current once daily while the unit is open. The defibrillator will remain plugged into an emergency power electrical outlet at all times, except during battery testing or use.
   b. The crash cart lock will be checked once daily while units are open. The last three numbers on the lock will be written into the crash cart checklist. If the locks are changed, the new number will be placed on the checklist.
   c. When crash cart is opened it will be restocked by the unit staff and a yellow securement device will be applied. Pharmacy will be notified to check cart and apply a red lock.

6. Request for change in crash cart contents, shall be reviewed by the Resuscitation Committee.

Developed: 04/2013 AS
Reviewed: 5/17 la
Revised: 05/2016 AS, 9/18gr
PURPOSE:
1. To provide for the security and safety of all newborns in the Perinatal Department and pediatric patients in the Acute Sub Acute Department.
2. To prevent newborn and pediatric abduction and to provide guidelines in the case of such an occurrence. For clarification:
   Neonate (Newborn) = Birth to 27 days of age
   Pediatric = 28 days of age until 13th Birthday

POLICY:
1. All newborns in the Perinatal Department will be under the direct observation of a member of the nursing staff and/or direct care giver at all times. Under no circumstances will a newborn be left unattended.
2. All newborns and pediatric patients in the Acute Sub Acute Department will be under the supervision of a member of the nursing staff and/or direct care giver at all times.
3. All newborn/pediatric patients will be banded with a security tag on admission or at birth. This tag will be activated as stated in the HUGS/PEDZ policy.
4. The primary care giver of the patient will be informed of security precautions at the time of admission or as soon as they are available.
5. Nursing staff will document patient and family education of newborn/pediatric security on the nursing admission assessment form.
6. In the Perinatal Department, all newborns will be identified in the following manner:
   a. All mother-baby couples will have matching ID bands placed on them either in the birthing room or O.R., prior to separating mother and infant. However, if an emergency exists, the infant will be properly banded as soon after admission to the nursery as possible.
7. All pediatric patients will be identified in the following manner:
   a. All newborn and pediatric patients and their designated legal guardian will have matching ID bands placed on them at the time of admission.
8. Hospital staff will notify and work closely with law enforcement agencies, if an abduction occurs.

PROCEDURE:
A. Security Measures:
   1. At Northern Inyo Hospital (NIH) an electronic surveillance system by HUGS is utilized for all infant and pediatric patients. Refer to HUGS/PEDZ policy
   2. Infant-Mother ID bands will be placed on each mother-baby as soon after delivery as possible. Indicate to the parents verbally and visually that the name bands are matching. Document the band number and time bands were applied on the Labor and Delivery Record. The mother will have one wristband, and the baby will have two bands – one applied to a wrist, and the other to an ankle. These bands must be verified as matching and include the following information:
a. Mom’s First Name, BABY (Sex of infant), Mom’s Last Name Example: “Jane BABY GIRL Smith”.  
b. Date and Time of infant’s birth
3. Infant bar code scanning tag will be added once the infant has been registered and infant labels are available. Apply an infant label to the designated tag and attach it directly to the Mother-Baby band that is on the infant’s ankle. Verify that all patient identification indicators are identical. This tag will be used for scanning purposes.
4. All Perinatal Department nurses wear pink accented photo ID badges.
5. Pediatric patients will utilize the HUGS system in addition to the regular hospital wristband. A regular hospital ID band with the patient identification label will be placed on the legal parent/guardian at the time of admission.
6. Inform mothers of security procedures which include but are not limited to:  
a. Check for proper identification before giving the baby to anyone  
b. Never leave the baby alone or unsupervised in the room  
c. Place the baby’s bassinet on the side of the bed that is away from the door.  
d. All infants should remain in their cribs during transport i.e. from nursery to mother’s room, thus family members and staff should not be carrying infant in hallways or outside the Perinatal Department. Each crib will have a crib card with infant’s name, birth date and physician.

e. Instruct patients and family members to observe the visiting hours and rules and **NOT** to open the main security door to permit access to other visitors.

f. Only staff members should allow access to visitors according to patient privacy laws.

B. **In the event of an abduction:**
1. Follow the CODE AMBER abduction procedure outlined in the Emergency Preparedness Procedure chart. AKA “Rainbow chart”.
2. In the event of an abduction, the downtime Code Amber form will be completed and a copy provided to law enforcement.
3. House Supervisors, Directors of Nursing, Nurse Managers, or Administration:
   a. Consider moving the primary care giver of the abducted child to a private room off the Department and assign a staff member (preferably the nurse assigned to the mother, House Supervisor or nurse manager) to accompany them at all times protecting them from stressful contact with the media and other interference.
   b. If the incident occurred at shift change, hold the shift scheduled to leave until excused by law enforcement.
   c. The House Supervisor or nurse manager should brief all involved staff. In turn, nurses should then explain the situation to other patients in the unit (preferably while the mother and her infant are together).
d. Nursing Administration should be sensitive to the fact that the staff may suffer post trauma stress as a result of the abduction.

e. Protect the crime scene (area where the abduction occurred) in order to preserve the subsequent collection of any forensic evidence by law enforcement.

f. Coordinate with the police department by involving the media search for the infant if indicated.

g. Coordinate with the police department in notifying the Center for Missing and Exploited Children (NCMEC) at 1-800-843-5678 for technical assistance in handling on-going crisis management indicated.

h. Any facility providing care to infants and pediatric patients in the surrounding area such as but not limited to Hospitals, physician offices, Clinics, should be notified about the incident and provided with a full description of the patient and the abductor.

PURPOSE:
To define guidelines for student expectations while at the District during nursing program clinical rotations.

POLICY:
✓ All students will show documents to demonstrate meeting the employee health requirements prior to beginning clinical rotations at the District. Clearance will be done by the NIHD Employee Health RN. Student health records will be retained by the college/university.
✓ Students will be required to complete compliance and infection control training modules, assigned via the District Education Department and be cleared by the Human Resources department prior to beginning clinical rotations at the District.
✓ The School/University is responsible for assuring the physical fitness of students. The instructor will make sure appropriate precautions are followed if a student has an infectious disease.
✓ Students will wear appropriate uniforms and name badge, with clear identification of student role, while in the District facilities.
✓ Students are subject to all District policies and procedures while in the facility.
✓ The instructor is ultimately responsible for the training and education provided for the student.
✓ The NIH licensed personnel is responsible for the care given to the patient by the student.
✓ There needs to be effective communication and coordination of care between the NIH licensed personnel and clinical instructor.
✓ Students will not be included in the District staffing requirements.

Revised: 3/19ta
Supersedes:
PURPOSE:
The purpose of the policy is to define designated medical functions that may be performed by the RN as a standardized procedure in the ED.

POLICY:
It is the policy of Northern Inyo Healthcare District (NIHD) that only standardized procedure functions based on defined circumstances as outlined in this document may be performed by a Registered Nurse (RN) in the Emergency Department (ED) without previous written authorization of the Emergency Department Physician or Licensed Independent Practitioner (LIP).

PROCEDURE:
1. Competency Requirements
   a. To be eligible to perform this standardized procedure in the ED, the RN must:
      i. Hold a current CA RN License
      ii. Complete an initial training course specific to the elements of the standardized procedure outlined in this policy.
      iii. Competency is demonstrated annually and documented in the employee’s competency assessment files.
      iv. A list of RN’s competent to perform this standardized procedure is maintained with the Chief Nursing Officer and is updated annually.
      v. Standardized procedures are reviewed and approved annually by the Interdisciplinary Practice Committee.

2. Abdominal Pain
   a. Circumstances under which the procedure maybe performed:
      i. Any patient in the ED 18 years of age and older presenting with complaint of Abdominal Pain with a documented Emergency Severity Index (ESI) level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
      ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
      iii. Any significant change in patient condition
   c. Standardized procedure:
      i. Upon presentation to the ED with complaint of Abdominal Pain and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
         1. Saline Lock
2. NPO
3. CBC with automated differential
4. Comprehensive Metabolic Panel
5. Urine Dip and Hold Urine
6. Urinalysis, culture and sensitivity if urine dip shows leukesterase or nitrates
7. Female 10 years of age to 60 years of age:
   a. Pregnancy Test Urine Qualitative
8. For Upper Abdominal Pain:
   a. Lipase
   b. EKG if age >35
9. If nausea present:
   a. Ondansetron (Zofran) 4 mg IV X1
10. If vomiting present:
    If no medical history of Chronic Renal disease or heart failure, Normal Saline Bolus 1000ml

d. Complications:
   i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:
   i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

3. Chest Pain 35 years of age and older
   a. Circumstances under which the procedure maybe performed:
      i. Any patient in the ED 35 years of age and older presenting with complaint of Chest Pain with a documented ESI level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
      ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
      iii. Any significant change in patient condition
   c. Standardized procedure:
      i. Upon presentation to the ED with complaint of Chest Pain and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
         1. STAT EKG
         2. Continuous Pulse Oximetry
3. Continuous Cardiac Monitoring
4. Saline Lock
5. Chest X-ray 2 views, if able to stand. If unable to stand 1 view portable
6. CBC with automated differential
7. Comprehensive Metabolic Panel
8. Troponin I
9. If patient takes Coumadin:
   a. Prothrombin Time (PT) and INR
   b. Partial Thromboplastin Time
10. Oxygen via nasal cannula to keep oxygen saturation >95%
11. Aspirin 325mg PO Stat if not taken prior to arrival, or equivalent to equal 325mg if partial dose taken prior to arrival, and no contraindications to aspirin

d. Complications:
   i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.
e. Documentation:
   i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

4. Chest Pain 16 years of age to 34 years of age
a. Circumstances under which the procedure maybe performed:
   i. Any patient in the ED 16 years of age to 34 years of age presenting with complaint of Chest Pain with a documented ESI level 2-5.
b. Circumstances under which the Physician or LIP must be contacted:
   i. Any patient classified as an ESI Level 1.
   ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
   iii. Any significant change in patient condition
c. Standardized procedure:
   i. Upon presentation to the ED with complaint of Chest Pain and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
      1. STAT EKG
      2. Chest X-ray 2 views, if able to stand. If unable to stand 1 view portable
d. Complications:
i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:
  i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

5. Dysuria
   a. Circumstances under which the procedure maybe performed:
      i. Any patient presenting to the ED with complaint of Dysuria with a documented ESI level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
      ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
      iii. Any significant change in patient condition
   c. Standardized procedure:
      i. Upon presentation to the ED with complaint of Dysuria and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
         1. Urine Dip and Hold Urine
         2. Urinalysis, culture and sensitivity if urine dip shows leukesterase or nitrates
         3. Female 10 years of age to 60 years of age:
            a. Pregnancy Test Urine Qualitative
   d. Complications:
      i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.
   e. Documentation:
      i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

6. Fever 16 years of age and older
   a. Circumstances under which the procedure maybe performed:
      i. Any patient in the ED 16 years of age and older presenting with complaint of fever with a documented ESI level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.

iii. Any significant change in patient condition

c. Standardized procedure:

i. Upon presentation to the ED with complaint of fever and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.

1. Acetaminophen 650mg PO X1 for temperature >100.5 Fahrenheit if unable to swallow may order PR.

2. If Acetaminophen has been administered in the last 6 hours, and Ibuprofen has not been administered in last 6 hours, order will be placed for Ibuprofen 600mg PO X1.

d. Complications:

i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:

i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

7. Fever 3 months of age to 15 years of age

a. Circumstances under which the procedure maybe performed:

i. Any patient in the ED 3 months to 15 years of age presenting with complaint of fever with a documented ESI level 2-5.

b. Circumstances under which the Physician or LIP must be contacted:

i. Any patient classified as an ESI Level 1.

ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.

iii. Any significant change in patient condition

c. Standardized procedure:

i. Upon presentation to the ED with complaint of fever and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.

1. Acetaminophen Suspension 15mg/kg PO X1 (maximum dose 1000mg) for temperature >100.5 Fahrenheit if unable to swallow notify ED Physician or LIP. If patient is greater than 6 months of age and Acetaminophen has already been administered in last 6 hours and Ibuprofen has not been administered in last 6 hours,
order will be placed for Ibuprofen 10mg/kg PO X1 (maximum dose 600mg) for temperature greater than 100.5 Fahrenheit.

d. Complications:
   i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:
   i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

8. Extremity Deformity or pain from trauma

   a. Circumstances under which the procedure maybe performed:
      i. Any patient in the ED 5 years of age and older presenting with extremity deformity or pain from trauma with a documented ESI level 2-5, and assessed to have normal circulation, movement, and sensation in the distal extremity.

   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
      ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
      iii. Any significant change in patient condition

   c. Standardized procedure:
      i. Upon presentation to the ED with extremity deformity or pain from trauma assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
         1. If Ibuprofen has not been administered in the last 6 hours order will be placed for Ibuprofen 10mg/kg max dose of 600mg PO X1, if no NSAIDS have been taken in the last 6 hours.
         2. Contact ED Physician or LIP for pain medication order if needed
         3. Obtain Radiology: X-ray of the affected extremity
         4. Ice Therapy
         5. Elevate affected extremity

d. Complications:
   i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:
   i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.
9. Vomiting 18 years of age and older
   a. Circumstances under which the procedure maybe performed:
      i. Any patient in the ED 18 years of age and older presenting with complaint
         of vomiting with a documented ESI level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
      ii. Any patient classified as an ESI level 2 will require notification within 10
          minutes.
      iii. Any significant change in patient condition
   c. Standardized procedure:
      i. Upon presentation to the ED with complaint of vomiting and assigned an
         ESI level 2-5, if the physician or LIP cannot immediately evaluate the
         patient, the EDRN will place the following orders prior to the patient
         being seen by the ED Physician or LIP.
         1. Place Saline Lock
         2. If no medical history of Chronic Renal disease or heart failure,
            Normal Saline Bolus 1000ml
         3. Ondansetron (Zofran) 4mg IV X1
   d. Complications:
      i. Immediate Physician or LIP notification of abnormal Vital Signs and or
         change in status to higher priority category.
   e. Documentation:
      i. Patient specific information obtained for ED nursing documentation
         includes subjective data, objective data, and record of any actions taken
         per standardized procedure.

10. Vomiting 6 months of age to 17 years of age
    a. Circumstances under which the procedure maybe performed:
       i. Any patient in the ED 6 months to 17 years of age presenting with
          complaint of vomiting with a documented ESI level 2-5.
    b. Circumstances under which the Physician or LIP must be contacted:
       i. Any patient classified as an ESI Level 1.
       ii. Any patient classified as an ESI level 2 will require notification within 10
           minutes.
       iii. Any significant change in patient condition
    c. Standardized procedure:
       i. Upon presentation to the ED with complaint of vomiting and assigned an
          ESI level 2-5, if the physician or LIP cannot immediately evaluate the
          patient, the EDRN will place the following orders prior to the patient
          being seen by the ED Physician or LIP.
1. Ondansetron (Zofran) 0.5mg/kg Oral Disintegrating Tab (ODT), max dose 4mg.

d. Complications:
   i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:
   i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

11. Shortness of Breath WITH history of Asthma
   a. Circumstances under which the procedure maybe performed:
      i. Any patient presenting to the ED with complaint of Shortness of Breath with history of Asthma and with a documented ESI level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
      ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
      iii. Any significant change in patient condition
   c. Standardized procedure:
      i. Upon presentation to the ED with complaint of Shortness of Breath with history of Asthma and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
         1. Continuous pulse oximetry
         2. Oxygen administration titrate to keep saturation >90%
         3. Duoneb x1
   d. Complications:
      i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.
   e. Documentation:
      i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

12. Shortness of Breath 18 years of age and older without history of Asthma
   a. Circumstances under which the procedure maybe performed:
i. Any patient presenting to the ED 18 years of age and older with complaint of Shortness of Breath without history of Asthma with a documented ESI level 2-5.

b. Circumstances under which the Physician or LIP must be contacted:
   i. Any patient classified as an ESI Level 1.
   ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.
   iii. Any significant change in patient condition

c. Standardized procedure:
   i. Upon presentation to the ED with complaint of Shortness of Breath without history of Asthma and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.
      1. Saline Lock
      2. Continuous pulse oximetry
      3. Continuous cardiac monitoring
      4. Chest X-ray 2 views, if able to stand. If unable to stand 1 view portable
      5. EKG if patient >35 years of age
      6. Oxygen administration titrate to keep saturation >90%
      7. If wheezes are present:
         a. Duoneb x1

d. Complications:
   i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:
   i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

13. Shortness of Breath 17 years of age and younger without history of Asthma
   a. Circumstances under which the procedure maybe performed:
      i. Any patient presenting to the ED 17 years of age and younger with complaint of Shortness of Breath without history of Asthma with a documented ESI level 2-5.
   b. Circumstances under which the Physician or LIP must be contacted:
      i. Any patient classified as an ESI Level 1.
ii. Any patient classified as an ESI level 2 will require notification within 10 minutes.

iii. Any significant change in patient condition

c. Standardized procedure:

i. Upon presentation to the ED with complaint of Shortness of Breath without history of Asthma and assigned an ESI level 2-5, if the physician or LIP cannot immediately evaluate the patient, the EDRN will place the following orders prior to the patient being seen by the ED Physician or LIP.

1. Continuous pulse oximetry
2. Chest X-ray 2 views, if able to stand. If unable to stand 1 view portable
3. Oxygen administration titrate to keep saturation >90%
4. If wheezes are present:
   a. Albuterol 2.5mg via hand held nebulizer x1

d. Complications:

i. Immediate Physician or LIP notification of abnormal Vital Signs and or change in status to higher priority category.

e. Documentation:

i. Patient specific information obtained for ED nursing documentation includes subjective data, objective data, and record of any actions taken per standardized procedure.

PURPOSE:
To give the discipline of Speech-Language Pathologist (SLP) privileges to adjust a patient’s diet orders and swallow strategies to ensure safe swallowing.

POLICY:
1. The SLP will follow the adopted hospital diet texture manual for dietary options.

2. Upon completion of the evaluation by the SLP, the diet may be adjusted or changed with downgrades and advancements of textures including solids and liquids.

3. A. Diet modifications will be placed into the Electronic Medical Record (EMR) by the SLP and then sent over for the physician’s signature as confirmation of the diet texture. SLP diet texture order changes need to take effect immediately with notification to physician, nursing staff, and dietary staff.

B. All SLP dietary order changes will need physician e-signature as co-signing/confirmation within 24 hours. (SLP student interns may document in EMR, but they will not have diet management privileges or enter an SLP plan of care order).

4. Each patient within the facility will need to have a diet order whether it is NPO, clear liquids, or full PO intake as outlined in the diet texture manual.

PROCEDURE:
1. Physician enters initial diet order on admission. All diet orders and changes are entered via the Computer Physician Order Entry system (CPOE).

2. Subsequent diet order changes may be made at the discretion of the physician.

3. Upon evaluation or re-evaluation of a patient, the SLP may adjust diet orders via a Speech/Swallow Plan of Care and in CPOE in the following scenarios:
   A. Downgrade a diet consistency (liquids and/or solids). E-signature by physician is required (i.e., changing diet from Regular consistency to Dysphagia Ground).
   B. Upgrades a diet consistency (liquids and/or solids). E-signature by physician is required (i.e., changing from Dysphagia Puree and Honey thick liquids to a Dysphagia Ground and Nectar thick liquids).
   C. Modifications in the delivery of the solids, liquids, or medications to ensure safe swallowing strategies. E-signature by physician is required (i.e., Changing diet from Dysphagia Advanced with thin liquids to Dysphagia Advanced with thin liquids, but utilizing a small sip by cup with chin tuck and crushing the medications in applesauce).

4. Diet advancement off of NPO requires an order directly from the physician.

5. Diet upgrades or downgrades will not progress off of “Clear liquids only” (to a full liquid or Solid consistencies) or onto “Clear liquids only”, as the “Clear liquids only” diet needs to be ordered or discontinued directly by a physician. However, the SLP may modify the “Clear liquid” diet with the liquid consistencies of “Thin, Nectar, or Honey thick” to reduce aspiration risk.

6. Changing a patient from a PO diet to an NPO diet also requires an order directly from the physician.
Title: Diet Texture Ordering Protocol

Scope: Speech, Dietary, Nursing
Manual: Clinical Practice Manual - GNT
Source: Director of Rehab Services
Effective Date:

7. The SLP cannot directly order NPO or take a patient off NPO. However, the SLP may make the recommendations to do so in the Speech/Swallow Plan of Care.

PURPOSE: To ensure that home bound patients have an opportunity to receive laboratory services from NIHD and to maintain a safe and ergonomic environment for laboratory personnel providing home collection services.

POLICY:
NIHD Laboratory services will go to patient’s homes to collect specimens for patients who meet specific criteria, as defined below, and for whom laboratory tests were ordered by credentialed NIHD providers.

PATIENT CRITERIA FOR HOME BOUND SERVICES:
Patient must meet at least one of the following requirements of Medicare’s definition of “home bound patients”:
- Patient cannot leave home without considerable and taxing physical effort
- Patient must have injury or illness that keeps them from leaving their home
- Patient must have symptoms of a disease process that worsen when leaving their home
- Patient infrequently leaves home for non-medical services and does so only for short durations

NOTE: Lack of transportation does not qualify a patient for home collection services. Patients who have transport needs should coordinate transport services with NIHD transportation services or other local transportation service.

HOME COLLECTION SERVICE AREA:
Home collection services will be provided only to patients who live within the 30 minutes driving time of hospital AND reside within Northern Inyo Healthcare District boundaries.

PROCEDURE:
1. NIHD provider will order lab tests AND order home draw services on patients who live within the defined boundaries outlined in this policy and whom meet criteria for home collection services as defined in this policy.

2. Lab will contact the patient or caregiver by phone the day prior to the date home collection services are scheduled in order to:
   a. Verify the patient will be home and prepared for service
   b. Remind fasting patients that they must not eat or drink anything except water prior to collection
   c. Remind that bed bound or non-ambulatory patients will have a caregiver present to allow entry into the residence
   d. Assure that the environment is safe including but not limited to:
      i. All animals will be confined or restrained during visit
      ii. Individuals at the residence are not under the influence of non-prescribed drugs or alcohol
      iii. There are no unsanitary conditions within the home or on the property
      iv. The patient will be prepared for collection, i.e. in a position that allows for ergonomic collection of specimen

3. Documentation will be made on the home draw list indicating that the patient had been reached or a message was left. Home collection services will not be provided unless the patient or the caregiver is contacted on the day prior to the collection and that the requirements within section 2 are confirmed.
4. One qualified lab assistant and one additional NIHD employee will be required to be present for all home collection services. Under no circumstances will NIHD staff enter a premise without the patient or caregiver physically providing access to the residence.

5. Fasting patients will be collected prior to non-fasting patients whenever possible. Non-fasting patients will be prioritized to facilitate travel efficiency and to accommodate patient special requests.

6. A Condition of Admission (COA) will be provided with each order and must be signed by the patient or caregiver prior to obtaining a specimen. The Lab Assistant will sign and date as the witness.

7. Lab staff will follow all procedures to ensure specimen integrity and processing in a manner that will preserve the specimen as necessary for accurate testing.

WITHDRAWAL OF HOME DRAW SERVICES

1. If both the lab staff and the chaperoning NIHD staff agree that services cannot be provided in a safe, ergonomic, and sanitary method, home collection services will be discontinued immediately and the following will occur:
   a. the ordering provider and Director of Diagnostic services will be notified of the immediate withdrawal of services and the cause(s) of the withdrawal of services.
   b. The Director of Diagnostic Services will be responsible for notifying the appropriate authorities of unsafe / hazardous conditions as required by law.

2. The ordering provider may re-order home collection services once the provider is confident that the cause(s) of the withdrawal of services have been remedied.

3. Any patient that has home collection services withdrawn on three separate occasions will not be eligible for future home collection services without documented changes in patient’s living conditions that are reviewed and approved by Director of Diagnostic Services.

PURPOSE: To establish and describe the medical necessity guidelines of Certified Lymphedema Therapists (CLT) for managing lymphedema, lipedema, chronic venous insufficiency, and other contributing diagnoses for the development of lymphedema in both adult and pediatric patients based upon its clinical severity using the gold-standard method of Complete Decongestive Therapy (CDT). Lymphedema is an accumulation of protein-rich fluid in the interstitial spaces that leads to swelling, decreased mobility, increased risk of infection, psychosocial concerns, limited function, and impaired self-care. Lymphedema may be primary, due to a genetic anomaly of the lymphatic system; or secondary, due to a removal of lymph nodes, radiation treatment, infection, surgery, trauma, or other contributing health issues.

POLICY:
1. Certified Lymphedema Therapists (CLT) will adhere to the treatment standard of CDT when diagnosing and treating swelling conditions. As edema is simply a symptom of a disease process, proper diagnosis is essential when utilizing treatments as outlined in the CDT procedure. CLT’s are specifically trained in diagnosis of various edema-related conditions.
2. The treatment standard of CDT includes:
   1. Skin care.
   2. Manual Lymphatic Drainage (MLD) involving massage to redirect lymph fluid toward functioning lymph systems.
   3. Compression bandaging/fitting for compression garments for preventing re-accumulation of fluid.
   4. Remedial exercises for enhancing lymphatic flow from peripheral to central drainage components.
   5. Development and implementation of a home program, which continues to address the above, with the patient’s understanding that lymphedema is a chronic, life-long condition demanding independent and consistent management.
3. CDT is medically necessary when it is anticipated that the patient and/or caregiver will show compliance following the instructions associated with the CDT for any of the following indications:
   1. There is a documented diagnosis of lymphedema from a physician (MD, DO), advanced practice registered nurse (NP), or physician assistant (PA-C).
   2. Intractable lymphedema of the extremities, unrelieved by conservative therapy.
   3. One or more previous hospital admissions to treat complications of intractable lymphedema.
   4. Evidence of ulceration due to lymphedema.
   5. Post-mastectomy lymphedema syndrome.
   6. Hereditary edema.
   7. Truncaal edema.
   8. Genital edema.
   9. Head and neck edema.
10. And there are not documented contraindications for lymphedema management, including acute infection of the body part, venous or arterial obstruction, or confirmed/suspected local disease or active malignancy.
PROCEDURE:
1. Following a referral from a MD, NP, or PA-C, the CLT performs a full evaluation of the patient. The evaluation includes:
   1. Medical history.
   2. Prior level of function.
   3. Medical and treatment diagnoses.
   4. Contraindications to any part of the CDT protocol.
   5. Skin inspection and assessment.
   6. Circumferential measurements of affected and non-affected areas.
   7. Problem list and summary.
   9. Short-term and long-term goals.
   10. Facilitative factors and barriers to progress.
   11. Rehabilitation potential.
   12. Frequency and duration.
   13. Education.
   15. Discharge plan.
2. Based on the evaluation findings, a Plan of Care (POC) is established for initiating CDT, or some modification therein, as needed for the specific edema-related condition. The treatment protocol for full CDT is defined above, and is broken into two stages:
   1. The intensive or decongestive phase.
   2. The self-management phase.
3. The Intensive Phase of CDT involves:
   1. 3-5x/week sessions over a 2 to 8-week period, focusing on overall decongestion of the affected body area.
   2. Skin care, including application of low pH lotions to the affected limb prior to bandaging and instruction in proper cleansing and moisturizing techniques for maintaining the health and integrity of the skin and to prevent infections.
   3. Manual lymph drainage (MLD) application between 30- 60 minutes, starting with stimulation of the patent lymphatic system areas, resulting in a “suction effect” on the protein-rich lymph fluid in the congested area, and then moving to the affected areas or limbs.
   4. Compression therapy, including the application of short-stretch bandages in combination with appropriate padding materials, and patient instruction to not remove the bandages at home. Instruction of the patient and a caregiver/family member in self-application of the bandages occurs at this stage.
   5. Decongestive exercises performed by the patient twice daily for 10-15minutes while wearing the compression bandages for improving lymph circulation and maximize functional ability.
4. The Self-Management Phase of CDT involves:
   1. Skin and nail care, including application of appropriate skin moisturizers twice daily.
   2. Self-manual lymph drainage.
   3. Compression therapy, including the use of bandages/foam and garments as appropriate.
   4. Decongestive exercises.
Title: Lymphedema Treatment

Scope: Only Certified Lymphedema Therapists (CLT) Manual: Occupational Therapy, Physical Therapy, Rehabilitation Services

Source: Chief Nursing Officer Effective Date: 3/5.

5. Reassessments will occur at least once a week during the session with the CLT, where circumferential measurements will be taken and recorded to ensure maintenance or progression of gains from treatment.

6. The CLT recommends appropriate compressive garments as needed for the edema condition, body area, and affected lymph systems.

POLICY STATEMENT:
1. Subacute nursing is provided using an interdisciplinary team approach based on a holistic assessment of patient needs, problems, capabilities, limitations, interventions, and patient response.
2. Patient expectations as defined will be met for each patient.
3. The patient age specific population served is:
   a. Adult 13 years old to 65
   b. Older adult 65+

PROCEDURE:
The Subacute Swing patient can expect:

1. ON ADMISSION/TRANSFER INTO DEPARTMENT:
   a. To be greeted immediately upon arrival to the unit including:
      1) Clean resident room with appropriate supplies and equipment.
      2) Introduction of team members
      3) Explanation of what to expect within the next hour.
      4) Assessing level of assistance required in transferring from cart or wheelchair to the bed, ambulating, feeding self, changing into a gown, and supporting patient level of assistance identified.
      5) Oriented to room including call light use, phone and bed operation, bathroom location, TV, and unit routine.
      6) Pain, potty, position addressed.
      7) Addressing additional comfort needs such as fluids, blankets, IV site, traction, safety devices, and communication devices.
      8) Conducting an environmental assessment (trash can, Kleenex, etc.) within reach and patient personal equipment checked prior to usage.
   b. To have his/her admitting or transfer condition assessed (quick check) within 30 minutes of arrival.
   d. To have initial nursing assessment initiated within 4 hours of admission (completed within 12 hours of admission) to the unit including:
      1) Review of Medical Staff orders
      2) Interdisciplinary referral based on functional screens within the nursing assessment
      3) Medication history (list of current medications and purpose).
   e. To have Medical Staff Practitioner admitting orders to Subacute received and reviewed with the resident and initiated within 4 hours of admission:
      1) To review medical staff plan of care as written
   f. In addition to the initial nursing assessment and the patient profile, the RN will conduct an initial and periodic comprehensive, accurate assessment of each resident’s functional capacity. The periodic assessment will be repeated within 14 days after a significant change in the resident’s physical or mental condition and not less often than once every 12 months.
   g. To have resident discharge needs initiated at time of admission and throughout the stay including:
      1) Patient goals for hospitalization (what can we help you with while you are here?)
NORTHERN INYO HOSPITAL
POLICY AND PROCEDURE

Title: Standards of Care for the Swing Bed Resident
Scope: Swing Manual: Standards of Care (S of C)
Source: Manager – ICU Acute/Subacute Effective Date: 7/1/2014

2) Referral to the interdisciplinary team based on clinical screens for dietary, social work, rehabilitation services, and pharmacy.

h. To have the nursing assessment including plan of care reviewed/updated within 12 hours of admission/transfer to the unit including:
   1) Physician orders obtained for transfer
   2) Medication reconciliation

i. To have pharmacy review the medication list for appropriateness including medication reason specified within 24 hours of admission/transfer

2. THROUGHOUT STAY:
   a. To be treated in accordance to resident rights.
   b. To be kept informed of and encouraged to take part in development of the plan of care including discharge needs, medications and procedures.
   c. To have his/her health status monitored and reassessed by an RN a minimum of every shift and as the patient’s condition warrants.
   d. To keep the Physician(s) updated and informed of response to care and/or significant changes as demonstrated by:
      1) Abnormal or worsening critical signs specific to patient baseline.
      2) Abnormal or critical lab values.
      3) Significant or worsening change in physical assessment.
      4) Significant change in level of mental status.
      5) Significant change or imbalance in I & O.
      6) Any adverse drug and/or blood reaction.
      7) Inability to control or obtain pain relief or untoward change as a response of treatment.
      8) Any untoward occurrence/event occurring in the hospital.
   e. To receive prompt identification and intervention for potential and/or actual complications/side effects, including rapid response team initiation.
   f. To have pain reassessed and managed in a systematic way to achieve optimal pain relief.
   g. To have care delivered based on standards of practice for the diagnosis identified.
   h. To have hourly rounding 0800 to 2400 and every 2 hour rounding 2400 to 0800 for:
      1) Pain, potty, position
      2) Comfort needs addressed
      3) Environment assessment
   i. Safety measures to be identified specific to each patient including:
      1) A fall risk assessment every 24 hours and with change of condition.
         a) Interventions in place specific to the patient
         b) High risk patient to be awoken at agreed upon time for toileting
      2) Skin assessment every 24 hours
         a) Interventions to be in place specific to patient
      3) Identification bracelet in place in addition to usage of two methods of patient identification.
      4) Time out as appropriate for identified invasive procedures.
      5) 5 rights of medication administration practiced.
      6) Smoke free environment.
      7) To achieve a restraint free environment emphasizing alternatives to restraint such as use of restorative programs, resident orientation techniques etc. Restraints only used if less
restrictive measures have not succeeded or are clearly not likely to succeed in preventing injury to the patient (see P&P)
8) To be assessed for suicidal risk.

j. To be supported throughout the admission with information and education including:
   1) Understanding of health status.
   2) Self care in relation to health status – an explanation of the plan for care treatment services.
   3) Medications being administered and purpose.
   4) Usage of any equipment during stay and equipment usage after discharge.
   5) Basic health practices and safety including hour to communicate concerns about safety issues before, during and after care is received.
   6) Nutrition interventions.
   7) Discussion of pain, the risk for pain, and methods for pain management
   8) Information on oral health.
   9) Habitation or rehabilitation techniques to help patient reach maximum independence.
   10) Fall reduction strategies.

k. To have continuity of care maintained between caregivers and departments through appropriate sharing of information (SBAR-QC).

l. To have preventative measures followed for resident infections, pneumonia, clots.

m. To have an Attending Physician oversee care with site visit every 24 hours.

n. To have Medical Staff consultations completed within 48 hours of referral.

o. To have social and recreational activities provided according to resident abilities and interest.

p. To have services that support family time, social work, nursing care, dental care, rehabilitation and discharge needs.

q. To have good and nutrition products that meet the resident’s special diet, cultural, religious or ethnic preferences.

r. If a patient has dentures that are lost or damaged by staff, the hospital will consume the responsibility for the cost of replacement. The case manager or house supervisor will facilitate referral to dental services within three days from the incident. If the referral is unable to be completed, it will be documented as to what interventions were offered to ensure the resident is able to eat and drink adequately.

3. ON TRANSFER WITHIN NIH:
   a. Transfer tab completed by transferring RN.
   b. Assessment completed by receiving RN.
   c. Transferring RN provides report of patient condition (SBAR-QC P&P) to receiving RN.
   d. Patient/family kept updated on reason for transfer, location moved, and change in plan of care.
   e. To be transferred with all belongings.
   f. Medications/orders to be reconciled upon transfer by receiving RN/Pharmacy.

4. ON DISCHARGE/TRANSFER TO ANOTHER FACILITY:
   a. Discharge transfer orders to be reviewed with patient/family member.
   b. Discharge Transfer assessment to be completed by RN and report called to receiving facility RN.
   c. Transportation to be arranged including:
      1) Care level during transport (orders)
      2) IV/Medication maintenance as appropriate.
      3) Medical condition
4) Record of care (chart copy per policy)
   d. Discharging Transfer RN to give report to transport team RN/MD/Paramedic/EMT as appropriate.
   e. Patient to be transferred with all personal belongings and medications.
   f. Patient will be notified in writing and verbally of their discharge/transfer. A copy of the written discharge/transfer notice will then be faxed to the state’s long-term care ombudsman.

5. ON DISCHARGE:
   a. Discharge assessment completed by RN.
   b. Discharging RN to provide written discharge instructions to patient/family member/significant other as per policy.
   c. Discharging RN to clarify discharge instruction with patient/family member/significant other on discharge instructions including:
      1) Who to call for questions
      2) Nature of medical condition and what symptoms to report to MD.
      3) Medications to take.
      4) Follow up appointment or when to make it; including outpatient diagnostic test and lab work completion instruction.
      5) At home equipment, usage and vendor to call for assistance.
      6) Home Health/Hospice/Meals on Wheels contact information as ordered.
      7) Activity level and return to work.
   d. To be discharged with all belongings and medications.
   e. Hospital follow-up call.

6. ON EXPIRATION:
   a. Family member/significant other/Power of Attorney/health care surrogate, nursing home, and Organ Procurement agency to be notified of impending death.
   b. All Medical Staff assigned to the case, nursing home, family member/significant other/Power of Attorney/Health Care Surrogate, and organ procurement agency to be notified of death (see Organ/Transplant/Eye Donation*).
   c. All belongings to be returned to family or sent with body to funeral home.
   d. Post mortem care to be completed and body released to funeral home, medical examiner, or donation university.

Dev. 2/17
Medical Staff Services

FY 2019
Q3: January – March 2019

Narrative Notes:

1. Drop in “Percent on-time start” under the pillar of Customer Satisfaction – 46%
   a. This metric measures how many practitioners privileged during the quarter started on a date that was expected and/or planned (labeled as “on-time start”). During this quarter, the percent on-time start reached an all-time low of 46%. This was primarily due to the medical staff office’s prioritization of the hospitalist service over other services, which resulted in our office postponing the start date of four cardiologists providing remote interpretations and one surgeon. There was one additional applicant that was also delayed due to difficulties in completing necessary verifications of the person’s education.

2. Drop in “Percent processed within time specified in the bylaws” under the pillar of Quality – 91%
   a. For eight quarters in a row, the medical staff office has processed 100% of applications within the timeframe specified in the medical staff bylaws. This quarter, one of the eleven applications exceeded the 45-day review period designated in the bylaws to extend from the time the application is completed to the time the application is first verified by the credentials committee. This delay was caused by the decision to postpone the surgeon’s application in order to prioritize the hospitalist applications.

3. New metric titled “Resignations” added to the pillar of People
   a. This quarter, the metric of “Resignations” has been added for tracking. The baseline was established by taking the total number of medical staff resignations approved at the board of directors during fiscal year 2018. This metric does not necessarily track the departure of temporary practitioners who do not become medical staff members.

Dianne Picken, M.S.
Medical Staff Support Manager
4/2/19
Northern Inyo Healthcare District

Financial Narrative for the Six Months Ended December 31, 2018

Revenues:
Acute inpatient utilization was lower than in 2017 at 8.065 average acute daily census versus 9.049. Gross inpatient revenues are (11.2%) lower than in 2017. A (3%) reduction in inpatient surgical cases and a (18%) reduction in ICU days being contributing factors.

Observation hours also dropped by (10.1%) to an average daily census value of 1.19. Swing bed improved to an average census of 1.625 from .973. Overall bed utilization was 10.88 versus 11.34.

Outpatient revenues were up 8.9%. Half of this was due to our 4.0% price increase. There was growth in imaging, lab, infusion and other diagnostic services. RHC visits are down period over period due to decreased volumes during the Athena ramp up and moving Pediatrics to NIA.

The change in accounting practices to no longer include any special payments to NIHD (District support from the State, IGTs for Medicaid, etc.) has seen discounts go up to the extent that Other operating revenues have grown. These special payments were outlined in the Budget and are on track.

Operating Expenses:
Salary and benefit expenses have grown as overall FTEs have increase by 26.4 year over year. The impact of Phase III salary increases also represents a significant part of the change. Temporary labor costs (Contract Services) continue to be greater than budget and prior year. The cost of extra labor associated with Athena implementation is estimated at $540,000. Pharmacy price increases are the source of supply cost increases for the year. Both July and August were $40,000 more a month more expensive in electric utilization in 2018 than in 2017.

Non-Operating:
The Prime Grant of $1,930,000 in December had the impact to turn the year to date positive. This Grant drops by ($400,000) next year. NIA Clinic net revenues are both worse than budget and prior year. The Athena implementation significantly impacted patient visit totals. The 340B Retail pharmacy program with Dwayne’s is on track for the year and an improved source of revenue for this year.

Operations Versus Budget:
The process of loading the detailed budget into Intacct is still not complete. After Six Months Net Revenues are at $45,219,062 and with Bond Support at $716,647 resulting in Net Operating Revenues of $45,935,709 versus a budget of $46,258,380, ($322,751) behind plan.

Salary expenses are $15,547,841 versus a budget of $15,080,894; ($466,947) behind plan. Total Operating Expenses are $45,266,315 versus a budget of $45,542,028; $275,713 ahead of plan. Operating Income (Loss) is ($47,253) versus a budget of $715,352.

Interest Income is ahead of plan at $335,113 versus the budget of $211,726; ahead of plan $123,387 Medical Office Building (net) is behind plan with a loss of ($3,445,683) versus a budget of ($2,490,490). Overall Net Income is at $198,943 versus a budget of $1,272,588 when the budget is adjusted to reflect the receipt of the Prime Grant in December, 2018.

</tbody>
</table>

PURPOSE: To insure that employees in direct patient care areas have the skill and competency to perform Cardiac Pulmonary Resuscitation (CPR) as required for employment.

POLICY: To maintain staff competency in Cardio Pulmonary Resuscitation for American Heart Association (AHA) certifications BLS, ACLS, and PALS.

PROCEDURE:

1. Newly hired patient care personnel who do not have a current AHA BLS, ACLS or PALS card with a minimum of 6 months left prior to expiration will be offered a chance to complete certification via hospital blended learning platform. The certification renewal course is to be completed during the employee orientation period, unless otherwise arranged. An exception to this would be if personnel have a current AHA certification with no less than 6 months’ expiration. Personnel may elect to seek initial certification at another facility at their own expense. Once certification is obtained personnel will be enrolled in Resuscitation Quality Improvement Program (RQI), to maintain competency.

2. All patient care personnel in the nursing department and district RN’s subject to mandatory cardiopulmonary resuscitation (CPR) certifications (BLS, ACLS, PALS) will be required to participate in the RQI education program in place of traditional recertification. The RQI program promotes constant competency and certification for staff through the completion of quarterly reviews, hands on demonstrations and completion of a cognitive portion within the Learning Management System. The Resuscitation Quality Improvement Program is offered continuously throughout Northern Inyo Healthcare Districts District Education department.

3. RQI is the preferred method for competency recertification of CPR skills as evidenced by Best Practice recommendations through the AHA and Laerdal. Outlined below is NIHD’s RQI program.
   a) The RQI mannequin and supplies are located in the District Education Office.
   b) All patient care personnel in the nursing department and district RN’s whom are required to maintain CPR certification and competency must complete quarterly compressions and ventilations using the RQI mannequin. Quarterly Schedule: January-March, April-June, July-September, October-December.
   c) Patient care personnel must complete the online cognitive portion within the learning management system (LMS) by the assigned due date.
   d) Anyone who lets their certification expire or fails to complete the quarterly competencies will be held accountable to District Policy. Process will follow the same guidelines currently in place for employees who fail to maintain required certification; staff will not be allowed to provide direct patient service until certification or competency sessions are achieved. Exceptions will be made for leave of absence (LOA) situations. Upon return to work after LOA, employee will be required to complete RQI modules prior to providing direct patient care.
   e) Certification is verified through the LMS, Nursing Administration Office, and Human Resources. Resuscitation certification and E-cards may be printed from employee LMS profile as needed. Records of completion are maintained in the employee’s transcript within the LMS.

CALL TO ORDER
The meeting was called to order at 11:30 am by Mary Mae Kilpatrick, President.

PRESENT
Mary Mae Kilpatrick, President
Jean Turner, Vice President
Robert Sharp, Secretary
Peter Tracy, Treasurer
M.C. Hubbard, Member at Large
Allison Robinson MD, Chief of Staff
Kevin S. Flanigan MD, MBA, Chief Executive Officer
Kelli Davis MBA, Chief Operating Officer
John Tremble, Chief Financial Officer
Tracy Aspel RN, Chief Nursing Officer

OPPORTUNITY FOR PUBLIC COMMENT
Ms. Kilpatrick announced at this time persons in the audience may speak on any items listed on the Notice for this meeting, and speakers will be limited to a maximum of 3 minutes each. No comments were heard.

DISCUSSION OF PROPOSED MEDICAL STAFF LEADERSHIP MODEL
Open discussion took place on the subject of a new Medical Staff Leadership Model proposed by the Northern Inyo Healthcare District (NIHD) Medical Staff. The proposed leadership model consists of an expanded Chief of Staff role and implementation of a Chief Physician Quality Officer position. At the conclusion of discussion it was determined that the proposed Medical Staff Leadership model will be placed on the agenda for the next regular meeting of the District Board of Directors.

ADJOURNMENT
The meeting was adjourned at 12:50 pm.

Kelli Davis MBA, Chief Operating Officer
John Tremble, Chief Financial Officer
Tracy Aspel RN, Chief Nursing Officer

ABSENT
Peter Tracy, Treasurer

OPPORTUNITY FOR PUBLIC COMMENT
Ms. Kilpatrick announced at this time person in the audience may speak on any items not on the agenda for this meeting on any matter within the jurisdiction of the District Board. Members of the audience will have an opportunity to address the Board on every item on the agenda and speakers will be limited to a maximum of three minutes each. No comments were heard.

CHIEF OF STAFF REPORT
Chief of Staff Allison Robinson, MD reported following careful review, consideration, and approval by the appropriate Committees, the Medical Executive Committee recommends approval of the following District-wide Policies and Procedures:

1. Preoperative Medication Guidelines
2. Newborn Screening Test

It was moved by M.C. Hubbard, seconded by Robert Sharp, and unanimously passed to approve both Policies and Procedures as presented.

Doctor Robinson also reported the Medical Executive Committee recommends approval of the following Annual Reviews:

1. Utilization Review Plan
2. Utilization Review Critical Indicators 2019
3. Radiology Critical Indicators 2019
4. MRI Safety Policies
   i. Diagnostic Imaging – MRI Safety – Magnet Room
   ii. Diagnostic Imaging – MRI Safety Burn/Thermal Incident Reduction
   iii. Diagnostic Imaging – MRI Safety, Ear Protection
5. Radiation Safety Policies
   i. Diagnostic Imaging – Handling of Radioactive Packages, Non-nuclear medicine personnel
   ii. Diagnostic Imaging – Radioactive Material Hot Lab Security
iii. Diagnostic Imaging – Radioactive Materials Delivery After-hours
iv. Diagnostic Imaging – Radioactive Waste Storage and Disposal
v. Diagnostic Imaging – Disposal of Radioactive Sharps
vi. Diagnostic Imaging – Nuclear Medicine New Employee/Annual Orientation
vii. Diagnostic Imaging – Radioactive Material Spills
viii. ALARA Program
ix. Diagnostic Imaging – C-Arm (Fluoroscope) Radiation Safety

It was moved by Jean Turner, seconded by Ms. Hubbard, and unanimously passed to approve all Annual Reviews as presented.

Doctor Robinson also reported following careful review, consideration, and approval by the appropriate Committees the Medical Executive Committee recommends approval of the following Medical Staff appointments:

1. Anu Agarwal, MD (*Renown Cardiology*) – Telemedicine Staff
2. Abhilash Akinapelli, MD (*Renown Cardiology*) – Telemedicine Staff
3. Jack Ichino, MD (*Renown Cardiology*) – Telemedicine Staff
4. Thomas-Duythuc To, MD (*Renown Cardiology*) – Telemedicine Staff
5. Jeannie Pflum, DO (*Obstetrics and Gynecology*) – Consulting Staff

It was moved by Ms. Hubbard, seconded by Mr. Sharp, and unanimously passed to approve all five Medical Staff appointments as requested.

Doctor Robinson then reported the Medical Executive Committee recommends approval of the following Medical Staff temporary privileges:

1. Joseph BenPerlas, MD (*Internal Medicine*) – Locums/Temporary Staff
2. Bonnie Rashid, MD (*Internal Medicine*) – Locums/Temporary Staff

Doctor Robinson additionally noted that Muhammad Gill MD was listed on the agenda for this meeting for approval of temporary privileges, however that approval has been referred back to the Medical Executive Committee for further action. It was moved by Ms. Hubbard, seconded by Ms. Turner, and unanimously passed to approve the temporary privileges of Doctors BenPerlas and Rashid as requested.

Doctor Robinson also reported the Medical Executive Committee recommends approval of the following Telemedicine Privileges, Credentialing by Proxy:

*As per the approved Telemedicine Physician Credentialing and Privileging Agreement and as outlined and allowed by 42CFR 482.22,* the
Medical Staff has chosen to recommend the following practitioner for Telemedicine privileges relying upon Adventist Health’s credentialing and privileging decisions:
- Arin Aboulian, MD (Pulmonology) – Glendale Adventist Telemedicine Staff
It was moved by Ms. Hubbard, seconded by Ms. Turner, and unanimously passed to approve the telemedicine privileges of Doctor Aboulian as requested.

Doctor Robinson additionally reported the Medical Executive Committee recommends approval of the following reappointment to a new Staff category:
1. Taema Weiss, MD (Family Medicine) – recommended Staff category change from Active Staff to Consulting Staff without clinical privileges
It was moved by Ms. Hubbard, seconded by Mr. Sharp, and unanimously passed to approve the reappointment of Taema Weiss, MD to a new Staff category as requested.

Doctor Robinson also reported that John Adam Hawkins, DO (Emergency Medicine) has satisfactorily completed his introductory focused professional practice evaluations and has been recommended to advance from Provisional Staff to Active Staff. It was moved by Ms. Turner, seconded by Mr. Sharp and unanimously passed to approve the Medical Staff advancement of John Adam Hawkins, DO as requested.

Doctor Robinson additionally stated the Medical Executive Committee recommends acceptance of the Medical Staff resignation of Sandra Althaus, MD (Radiology) effective 1/14/19. It was moved by Ms. Hubbard, seconded by Ms. Turner, and unanimously passed to accept the resignation of Sandra Althaus, MD as requested.

Doctor Robinson also stated the Medical Executive Committee requests approval of the following updated Core Privilege Forms:
1. Family Medicine
2. Obstetrics and Gynecology
It was moved by Mr. Sharp, seconded by Ms. Turner and unanimously passed to approve both Core Privilege Forms as requested.

NEW BUSINESS

Northern Inyo Healthcare District (NIHD) Information Technology Director Robin Cassidy provided a quarterly report from the Finance and Market Share Committee established for the purpose of accomplishing the Finance and Market Share-related goals of the District’s Strategic Plan. Ms. Cassidy’s report included the following:
- Review of the Committee’s Finance initiatives and next steps
- Review of Market Share Initiatives and next steps
- Expense reduction efforts and revenue enhancement ideas received
from NIHD leaders
- Plans for conducting a community-wide health needs assessment
- A report on the efforts of a Market Share sub-committee, including marketing initiatives and recommendations

APPROVAL OF NIHD FOUNDATION BOARD MEMBERS
Chief Executive Officer (CEO) Kevin S. Flanigan MD, MBA called attention to approval of the nomination of two new NIHD Foundation Board members, Ms. Tawny Thomson and Ms. Corrina Korpi. It was moved by Ms. Hubbard, seconded by Mr. Sharp, and unanimously passed to appoint both NIHD Foundation Board members as requested.

CHIEF OPERATING OFFICER REPORT
Chief Operating Officer (COO) Kelli Davis provided a bi-monthly operations departments report which included the following:
- Departmental updates for Diagnostic Services; Rehabilitation Services; Environmental Services; Laundry; Dietary; Health Information Management; and Pharmacy
- Report on NIHD Safety initiatives and efforts, and an update on the NIHD Safety Coach program
- Ongoing District Survey readiness efforts and activities, including preparations for an upcoming Laboratory Re-Accreditation survey
- Continuing development of the NIHD employee talent pool
- Review of upcoming events and trainings including a diabetic self-management workshop
- Development of a Community Healthcare Provider Roundtable, to include NIHD; Toiyabe; Bishop Care Center; Sterling Heights; Inyo County; and independent healthcare providers

Ms. Davis additionally introduced NIHD’s incoming Pharmacy Director, Mr. Frank Laiacona.

JOINT COMMISSION ACCREDIDATION REPORT
Doctor Flanigan presented the final Accreditation Report for the Districts’ February 2019 full Joint Commission survey, which included:
- Joint Commission criteria for assessing level of risk of deficiencies identified
- Review of RFI’s (Requests for Improvements) noted, including the severity of the findings noted
- Review of the District’s plan of correction and response, as well as response submission due dates

Doctor Flanigan noted the majority of the Joint Commission findings were classified as low-risk, with only a few moderate-risk items. No high risk or emergency findings were identified. He additionally stated that the surveyors were extremely complimentary of District staff and of the level of medical services provided at NIHD.

CHIEF NURSING OFFICER REPORT
Chief Nursing Officer (CNO) Tracy Aspel, RN provided a bi-monthly Chief Nursing Officer report which included the following:
- Development of a Value Analysis Team to improve inventory control and quality, and to ultimately achieve cost savings
- Announcement of presentation of the upcoming Daisy Award for
excellence in nursing on May 13, 2019
- Report of implementation of Broselow Carts for pediatric resuscitation
- Perinatal team update, including a report on new equipment and an overview of the STABLE program
- An Emergency Department update and review of District disaster planning
- Updates on Employee Health; District Education, Perioperative, and Language Services departments

Doctor Flanigan provided a bi-monthly Chief Executive Officer report which included a notation that the District's operation of the Joseph House has been a great success, and it has allowed the District to reduce its number of rental properties and hotel room reservations made for incoming staff and practitioners.

Doctor Flanigan additionally provided an in-depth 2018 Outmigration Assessment report from Wipfli CPA’s and Consultants, in preparation for the upcoming comprehensive Community Health Needs Assessment to be conducted in cooperation with the County of Inyo; Toiyabe Indian Health Project; Southern Inyo Hospital; social support agencies; and other community organizations. The Community Health Needs Assessment will look at factors including:
- Demographic trends
- Market analysis
- Physician and Behavioral Health demands
- Home Health and Durable Medical Equipment (DME) needs
- Community Health Indicators

Doctor Flanigan then called attention to approval of the Pioneer Home Health annual budget for 2019, which shows a projected loss for the year of $27,174.94. Following review of the information provided it was moved by Ms. Hubbard, seconded by Ms. Turner, and passed to approve the 2019 projected budget for Pioneer Home Health, with Director Kilpatrick abstaining from the vote.

Doctor Flanigan also provided a Strategy Review for 2019, which recapped the District's current Strategic Plan efforts regarding the Patient Experience; Workforce Experience; Quality measures; and Finance and Market Share initiatives. In preparation for an upcoming Strategic Planning Session, he provided an overview of work accomplished to date including where the District is now, where it will go in the future, and how leadership intends to get it there. The following factors were also discussed:
- The shift in reimbursement for health care services based on quality as opposed to volume
- The importance of partnerships with local and regional organizations going forward
- A focus on expansion of outpatient services (including Behavioral Health)
- Expanding access to patient care

### CHIEF FINANCIAL OFFICER REPORT

Chief Financial Officer (CFO) John Tremble provided a bi-monthly finance report which included:
- Note of continuing challenges experienced by the Finance department regarding meeting reporting requirements following implementation of the Athena system and other new computer programs
- Review of billed charges for the months October 2018 through February 2019
- The lack of the ability of Athena to have claims accepted by Medi-Cal and Managed Medi-Cal for certain types of services is a major concern

### DISTRICT BOARD RESOLUTION 19-03

Mr. Tremble also called attention to approval of District Board Resolution 19-03 which designates the following officers (or their successors in office) as being authorized to deposit and withdraw monies on behalf of the District: CEO Kevin S. Flanigan, MD, MBA; COO Kelli Davis, MBA; CNO Tracy Aspel, RN; and CFO John Tremble. It was moved by Ms. Turner, seconded by Ms. Hubbard, and unanimously passed to approve District Board Resolution 19-03 as presented.

### DISCUSSION OF DATES FOR STRATEGIC PLANNING SESSION

Discussion took place on potential dates for the District's upcoming Strategic Planning Session. At the conclusion of discussion, no definitive date was chosen, however it was noted that scheduling the session on a Saturday is preferable in order to allow District physicians and health care providers to attend.

### DISCUSSION OF LEGAL RFP PROCESS

Brief discussion on the topic of developing a Request For Proposal (RFP) for District legal services took place. Two Board members will be designated as participants on a Committee formed to address this matter, and the Board members tentatively suggested were Directors Peter Tracy and Robert Sharp.

### OLD BUSINESS

### CHIEF OF STAFF JOB DESCRIPTION AND STIPEND CHANGE APPROVAL

Chief of Staff Allison Robinson MD opened discussion on a previously proposed expansion of the District's Chief of Staff role, as presented by the NIHD Medical Executive Committee. The proposal allows for the Chief of Staff to assume additional leadership and administrative duties for an increased stipend amount of $45,000 annually, due to the Chief of Staff having to reduce their practice hours in order to fulfill the duties of the role. It was noted that the Chief of Staff will continue to be a position that is elected by the general Medical Staff membership as a whole. Following an in-depth discussion of this matter it was moved by Mr. Sharp, seconded by Ms. Turner, and unanimously passed to approve the
concept of an expanded Chief of Staff role and increased stipend, with the stipulation that the job description will be re-written by the Medical Executive Committee in cooperation with the Chief Executive Officer. It was noted that a change will be made to strike a specification that the Medical Staff Office will now report to the Chief of Staff rather than to the NIHD CEO.

CHIEF PHYSICIAN QUALITY OFFICER PROPOSAL

Doctor Robinson also called attention to a Medical Staff proposal to establish a Chief Physician Quality Officer position, which will oversee quality-related matters for the District and the NIHD Medical Staff. Following an in-depth discussion of this agenda item a decision on the topic was tabled to a future meeting of the District Board, until such time as the Medical Staff can re-write some of the language included in the job description, and until it can be vetted by NIHD leadership and District legal counsel.

ATHENA IMPLEMENTATION UPDATE

Director of Information Technology Services Robin Cassidy provided an update on the Athena Health computer conversion, stating the project is now complete and District staff continues to work on addressing system shortcomings and creating workflows to improve the performance of the product. Many challenges remain in regard to perfecting operation of the systems that have been implemented, and District physicians and staff should be commended for their perseverance and dedication to making the project a success.

CONSENT AGENDA

Ms. Kilpatrick called attention to the Consent Agenda for this meeting which contained the following items:
- Approval of minutes of the January 28 2019 special meeting
- Approval of minutes of the February 20 2019 regular meeting
- Policy and Procedure annual approvals
- Acceptance of Pioneer Home Health Designation of Affiliated Covered Entity

It was moved by Mr. Sharp, seconded by Ms. Hubbard, and unanimously passed to approve all four Consent Agenda items as presented.

BOARD MEMBER REPORTS

Ms. Kilpatrick then asked if any members of the Board of Directors wished to report on any items of interest. Director Hubbard thanked Allison Robinson MD for her countless hours of dedication and work performed providing presentations, education, and screenings as part of Colorectal Cancer Awareness Month. No other comments were heard.

ADJOURNMENT TO CLOSED SESSION

At 9:45 pm Ms. Kilpatrick announced the meeting would be adjourned to Closed Session to allow the Board of Directors to:
- Conduct a public employee performance evaluation, Chief Executive Officer (pursuant to Government Code Section 54957).
- Conference with Legal Counsel regarding anticipated litigation or significant exposure to litigation (pursuant to Government Code Section 54956.9(b)), 2 potential cases.
RETURN TO OPEN SESSION AND REPORT OF ACTION TAKEN

At 10:57 pm the meeting returned to Open Session. Ms. Kilpatrick announced the Board took no reportable action.

ADJOURNMENT

The meeting was adjourned at 10:57 pm.

Mary Mae Kilpatrick, President

Bylaws of the
Northern Inyo Hospital Auxiliary
2/11/19

Article I
NAME

The name of this organization shall be the NORTHERN INYO HOSPITAL AUXILIARY. This organization is formed in the County of Inyo, State of California.

Article II
PURPOSE

This organization is formed exclusively for charitable, religious, educational, and/or scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under section 501©(3) of the Internal Revenue Code, or corresponding section of any future federal tax code.

Article III
EARNINGS RESTRICTED

No part of the net earnings of the organization shall inure to the benefit of, or be distributable to its members, trustees, officers, or other private persons, except that the organization shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article II hereof.

Article IV
ACTIVITIES RESTRICTED

No part of the activities of the organization shall be the carrying on of propaganda, or otherwise attempting to influence legislation, and the organization shall not participate in, or intervene in (including the publishing or distribution of statements) any political campaign on behalf of any candidate for public office. Notwithstanding any other provision of these articles, the organization shall not carry on any other activities not permitted to be carried on (a) by an organization exempt from federal income tax under section 501 © (3) of the Internal Revenue Code, or corresponding section of any future federal tax code, or (b) by a organization, contributions to which are deductible under section 170©(2) of the Internal Revenue Code, or corresponding section of any future federal tax code.
Article V  
DISSOLUTION

Upon the dissolution of the organization, assets shall be distributed for one or more exempt purposes within the meaning of section 501©(3) of the Internal Revenue Code, or corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government, for a public purpose. Any such assets not so disposed of shall be disposed of by the Court of Common Pleas of the county in which the principal office of the organization is then located, exclusively for such purposes or to such organization or organizations.

Article VI  
OFFICERS

Section 1. The elected officers of the Auxiliary shall be a President, a Vice-President, a Recording Secretary, a Corresponding Secretary and a Treasurer.

Section 2. Officers of the Auxiliary shall be elected for terms of one year. No officer shall be eligible for more than three consecutive terms in the same office.

a. The Treasurer may serve past the 3 year limit, as long as the person is qualified.

b. The President may serve past the 3 year limit, as long as the person is qualified.

Article VII  
TYPES OF MEMBERSHIP

Section 1. Membership in the Auxiliary shall be open to persons who are interested in Northern Inyo Hospital. All Auxiliary memberships shall be renewed annually. Prior to Active membership, a Counselor will educate and inform the prospective member as to function, purpose, and history of the Auxiliary.

Section 2. There shall be the following types of memberships:

a. ACTIVE: shall pay annual dues and participate in service programs of the Auxiliary to the extent of 50 hours minimum per year. Any Active Member in good standing shall have the right to vote, participate in meetings, and to hold office in the Auxiliary.
b. **ASSOCIATE**: shall be interested in the purpose of the Auxiliary, shall pay annual dues, but have no active membership responsibilities. Any Associate Member in good standing shall have the right to vote, may participate in meetings and chair Standing Committees of the Auxiliary.

c. **LIFE**: A Life Membership may be purchased at a one time price of $100.00. Any Life Member in good standing shall have the right to vote, participate in meetings and to hold office in the Auxiliary.

d. **HONORARY LIFE**: The highest honor awarded by the Auxiliary is an Honorary Life Membership. It is awarded rarely and only to those individuals who have served over and above the normal membership requirements. These members have served in leadership roles as officers and committee chairmen. In addition, they have given countless hours participating in ALL functions of the Auxiliary. These individuals are chosen in recognition of outstanding service to the Auxiliary or the Hospital, and shall pay no dues. Any Honorary Life Member in good standing shall have the right to vote, participate in meetings, and to hold office in the Auxiliary. Those who receive this honor truly earn it, and their dedication to the Auxiliary inspires us all.

**ARTICLE VIII**

**DUTIES OF OFFICERS**

**Section 1.** The **President** shall be the chief executive officer of the Auxiliary and the Executive Board, and shall have the supervision of general management of the Auxiliary. The President shall appoint the Parliamentarian, chairmen of the standing committees, special committees as occasion may demand, and chairmen caused by vacancies. The President shall be a member ex officio of all standing committees of the Auxiliary, except the Nomination Committee. The President shall work closely with the Hospital Administrator and perform all duties pertaining to the office.

**Section 2.** The **Vice-President** shall be in charge of membership and shall be Chairman of the Membership Committee. In the absence, disability or resignation of the President, the Vice President shall have the executive powers and perform duties of the President.
Section 3. The Recording Secretary shall be responsible for keeping an accurate record of meetings of the Northern Inyo Hospital Auxiliary and of the Executive Board, in books belonging to the Auxiliary. These minutes shall be open to the inspection of any member at any reasonable time.

Section 4. The Corresponding Secretary shall be responsible for the Auxiliary’s general correspondence.

Section 5. The Treasurer shall be responsible for keeping an accurate record of all financial affairs of the Auxiliary, and shall present a financial report at each General Meeting. All expenses, other than routine operating, must be approved by the members at a General Meeting, except for emergencies. The Treasurer’s book shall be audited at the end of each financial year by three members appointed by the President.

Section 6. The Parliamentarian shall be the Chairman of the Bylaws Committee, keep a current list of the Standing Rules, and shall advise the Auxiliary board on the validity of any question of Parliamentary Law.

ARTICLE IX
THE EXECUTIVE BOARD

Section 1. The Executive Board shall consist of the Officers of the Auxiliary, the immediate past President and the chairmen of the standing committees. The Administrator of the Hospital shall be an ex officio member of the Executive Board.

Section 2. All actions of the Executive Board are subject to the approval of the Northern Inyo Hospital Board of Directors or its representative, the Hospital Administrator. With this limitation, management and control of property and funds, the affairs of the Auxiliary shall be administered by the Executive Board. The Executive Board shall adopt its own rules of procedure not inconsistent with the Bylaws of the Auxiliary.

Section 3. Regular meetings of the Executive Board are combined with the General Meetings. Special meetings of the Board may be held at any time and place determined by the President, and in addition shall be called when requested in writing by not fewer than five members of the board.

Section 4. Five members shall constitute a quorum at any meeting of the Board. In the absence of a quorum, the meeting shall be adjourned.
ARTICLE X
GENERAL MEETINGS

Section 1. There shall be regular meetings of the Auxiliary membership, the number
to be determined by the Executive Board.

Section 2. The time and place of the General Meetings may be determined by
the President and/or the Executive Board. Meetings are ordinarily
scheduled the second Wednesday of each month. Meetings are to be
held at Northern Inyo Hospital Annex, unless otherwise designated.

Section 3. The annual Meetings shall be held in May of each year for the
Installation of Officers and Presentation of Awards.

Section 4. Ten voting members present shall constitute a quorum of any General
Meeting of the Auxiliary.

ARTICLE XI
COMMITTEES

Section 1. Standing Committees: There shall be Standing Committees necessary
to conduct the business and program of the Auxiliary. The personnel of
such committees shall consist of members designated by the Chairman
of the Committee with the approval of the President. The duties of each
commitee will be outlined in detail in the Chairman's Procedure Book.
These Chairmen become members of the Executive Board of the
Northern Inyo Hospital Auxiliary.

Section 2: Nominating Committee shall be put into being, and act as prescribed
in Article IX.

Section 3: Special Committees may be created when necessary by the President,
with the approval of the Executive Board.

ARTICLE XII
ELECTION PROCEDURES

Section 1. The Nominating Committee shall consist of three members appointed by
the board.

a. Suggested nominations for Officers of the Auxiliary shall be received
by the Nominating Committee from the membership. From these
suggestions, and as a result of its own deliberations,
the Nominating Committee shall submit to the April General Meeting a slate of candidates for officers during the ensuing year. Nominations may also be accepted from the floor.

b. Members of the Nomination Committee may be candidates for office.

Section 2. The Election of officers shall be held at the April Meeting. The new officers shall be installed at the May Meeting and take office on June 1.

ARTICLE XIII
Funds

Section 1. All fund-raising activities, other than regular membership dues, shall be subject to the approval of the Hospital Administration, and the funds shall be expended only for those purposes approved by the Auxiliary.

Section 2. All dues or contributions paid or made to the Auxiliary become the property of the Auxiliary, and the members or contributors shall have no further claim or rights thereto.

Section 3. All documents made, accepted or executed by the Auxiliary shall be signed by the President and/or representative.

Section 4. All checks drawn against the General Funds of the Auxiliary shall be signed by two authorized signatures on file at the banking institution.

Section 5. Funds expended for gifts to Northern Inyo Hospital (NIH) shall be for life saving equipment, or other items, or facility improvements that enhance the ability of NIH to serve the needs of the overall community, as expressed by the Hospital Administration.

ARTICLE XIV
Fiscal Year

The fiscal year of the Auxiliary shall commence on June 1, and shall end on May 31.

ARTICLE XV
Amendments

The Bylaws of the Auxiliary may be altered, repealed, or amended by the affirmative vote of two-thirds of the members present and voting, at any regular or special meeting of the Auxiliary, provided that notice of the proposed alteration, repeal or amendment be contained in a written notice of the meeting two weeks in advance.
ARTICLE XVI
APPROVAL AND ADOPTION

These Bylaws, after approval of the Northern Inyo Hospital Board of Directors, shall be effective immediately.

Approved: ____________________________________________________________________________ Date

Chief of Staff (COS)

Summary:
Elected by the voting members of the Medical Staff in accordance with the Medical Staff bylaws. Serves as Chair of the Medical Executive Committee and participates with other Medical Staff committees and departments as needed. Reports Medical Staff information to the Board relating to credentialing, peer review, disciplinary investigations and actions and Medical Staff interests as specified in the bylaws. Is responsive to the concerns and needs of medical staff members and is expected to foster and contribute to a close and mutually beneficial relationship between the medical staff and hospital management.

Medical Administrative Duties (average of 5.5 hours per week annually):
Is an active member of the medical staff as well as an advisor to Administration and participates in Medical Staff meetings, committees, and is an invited participant to the District Board meetings.

Is responsible for physician recruitment and retention along with HR and the Medical Staff Office. Integrates with the healthcare district on a community-wide assessment and strategic planning in determining a 5-year plan for physician succession.

Provides physician oversight, expertise and leadership, including working with the Medical Staff Office in relation to credentialing and privileging, peer review, responding to unusual occurrence reports and enforcement of Medical Staff bylaws and rules including behavioral standards. Directs development of and adherence to policies and procedures, bylaws and rules and regulations.

Performs duties in accordance with the Medical Staff bylaws.

Clinical Duties: Ongoing practice of clinical medicine as defined by their board certification.

Requirements: Unrestricted CA medical license; Board Certified in applicable specialty; valid DEA; active member of the Medical Staff in good standing.

Compensation: $45,000 annually.

CHIEF OF STAFF DUTIES - BYLAWS

The Chief of Staff shall serve as the chief officer of the Medical Staff for a two-year term. The duties of the Chief of Staff shall include, but not be limited to:

(a) enforcing the Medical Staff bylaws and rules and regulations, implementing sanctions where indicated, and promoting compliance with procedural safeguards in corrective action, application evaluation, and other peer review proceedings in accordance with applicable Bylaws provisions;

(b) calling, presiding at, and being responsible for the agenda of all meetings of the Medical Staff;

(c) serving as chair of the Executive Committee and calling, presiding at, and being responsible for the agenda of all meetings thereof;

(d) serving as an ex officio member of all other Medical Staff committees without vote, unless chief of staff membership in a particular committee is required by the Bylaws;

(e) acting in coordination and cooperation with the Administrator and District Board in all matters of mutual concern within the Hospital;

(f) appointing, in consultation with the Executive Committee, committee members for all standing committees other than the Executive Committee and all special, liaison, and multi-disciplinary committees, except where otherwise provided by these bylaws and, except where otherwise indicated, designating the chairs of these committees;

(g) representing the views, policies, needs, and concerns of the Medical Staff to the District Board and to the Administrator;

(h) being a spokesperson for the Medical Staff in external professional and public relations;

(i) serving on liaison committees with the District Board and administration, as well as outside licensing or accreditation agencies, when requested;
(j) regularly reporting to the District Board on the performance of Medical Staff functions and communicating to the Medical Staff any concerns expressed by the District Board;

(k) in the interim between Executive Committee meetings, performing such responsibilities of the Committee that, in the Chief of Staff's reasonable opinion, must be performed prior to the next meeting of the Executive Committee;

(l) appointing proctors, as required by the Bylaws, for Practitioners and AHP’s who are granted privileges; and

(m) performing such other functions as may be assigned to the Chief of Staff by the Bylaws, the Medical Staff, or the Executive Committee.
