- If the patient has a PO Box, ask for the “*residential*” address. **The discount is based on the fact that the patient (or patient’s parent) pays property taxes within the district.** People who are “renters” also qualify, if their permanent residence is in one of the above communities.
- The people who live in Aberdeen will show as Independence by zip code, even if the mail is delivered to a residential address in Aberdeen. They may also have a PO Box in Independence where they receive mail. As long as their *residence* is in Aberdeen, they qualify for the discount.
- If the patient’s main residence is out of the area, but they have a second home (for which they pay property taxes) in the district, they are eligible for the discount. They must have proof of payment of the property taxes within the district to start using the discount.
